GROW AND ENJOY YOUR OWN FRUIT. No fruit tastes better than that freshly harvested from your own garden or orchard. However, home freezers and public food lockers are making possible storing and enjoying fresh fruit throughout the year, extending the market and creating greater use for fruits.

PLANT NUT TREES for ornamental effect, comfortable shade, and delicious nuts. Pecan planting recommended for warmer parts of Virginia and states farther south. Hardy English Walnuts and blight-resistant Chinese Chestnuts adapted to most parts of the United States.

INCREASE THE BEAUTY AND VALUE OF YOUR REAL ESTATE with planned landscaping instead of haphazard planting. Landscaping is not limited to planting new homes, churches, schools and factories, but may be used in modernizing plantings on older property.

OFFERING THE NEWER AND BETTER VARIETIES. We are large, established growers and in position to supply reliable and popular older varieties; also new, improved ones tested and found worth while. Assistance is available to you in selecting plant material best suited to your requirements.

CONTAINER-GROWN PLANT MATERIAL. Available in many varieties for year 'round planting, even when fruiting or in flower. Cost is slightly more than dormant plants. Offered for drive-in trade or truck delivery only.

HORTICULTURAL ADVICE AND LANDSCAPE SERVICE AVAILABLE. Do not hesitate to write us for additional information in regard to fruits, nuts, or landscape plantings. If you are uncertain as to material which can be used to best advantage, send us a sketch of the grounds for recommendations. Should your planting problem require professional landscape service, please apply as early as possible as our landscape department is usually booked several weeks in advance. No charge is made for information furnished by letter or to callers at our office, but a nominal charge is made for making surveys and detailed plans. Helpful information on planting and care of plant material is furnished with order acknowledgments.

DEPENDABLE PLANTS AND INFORMATION. Our plant material is healthy, vigorous, state-inspected, grown under ideal soil and climatic conditions. We endeavor to be fair in our descriptions, mentioning unfavorable as well as favorable qualities a variety may possess. You may select from us with assurance.

GARDEN SUPPLIES. Plant Foods, Spray Materials, and other Garden Supplies—see pages 24-B, C, D, E, F and G.

VISITORS WELCOME. Main Nursery 3 miles south of Waynesboro on Lyndhurst-Sherando Lake Road—open Monday through Friday 7:00 a.m. to 5:00 p.m., Saturday until noon. **Boxwood Garden Shop,** Route 250, near Afton. **Azalea Gardens,** Route 151, between Amherst and Afton, Virginia.

BOXWOOD GARDEN SHOP. Route 250, one and one-half miles east of Skyline Drive Entrance. Featuring Evergreens, Roses, Flowering Trees, Spring Flowering Bulbs, Potted Plants—including African Violets—ready to be carried away in your car. Also offering Garden Tools, Spray Materials, Plant Food, Peat Moss, Seeds, and an attractive line of Native Handicraft, Rare Pottery and Garden Furniture. During late April and early May 100,000 Blooming Tulips and thousands of Daffodils and Flaming Azaleas are a special attraction.

AZALEA GARDENS. Route 151, between Amherst and Afton, Virginia. Specializing in Azaleas, Rhododendrons, Boxwoods, Hollies and other broad-leaved plant material. Azaleas are at their best in early May.

FRUIT

AND NUT TREE DEPARTMENT

Virginia's Largest Growers

On the following pages we offer finest strains of fruits and nuts our long experience affords. For more than thirty years we have been constantly improving existing varieties and testing new introductions, making available to our customers the best money can buy.

We offer a new variety or strain only after its merits have been proven and it is considered worthy of introduction. Commercial growers are now planting chiefly Double Red Apple Strains and recent introductions in early, better quality Peaches.

The importance of growing as much home fruit as possible is being recognized, not altogether for sake of economy, but much pleasure and satisfaction can be found in gardening and fruit raising. Fruit never tastes quite so good as when gathered from your own garden and orchards. Don't waste precious time and land by planting stock you can't be sure of. Waynesboro Nurseries can supply your needs with material thoroughly tested by performance.

Plant Apples now for shorter supplies which are expected to develop within the next few years due to the present light planting and abandoning of orchards of older, less desirable varieties.

APPLES—The King of Fruits

OUR TREES INSPECTED REGULARLY

By Virginia State Entomologist, certifying they are apparently free from dangerously injurious insects and plant diseases. Also Apple, Pear and Cherry are frequently inspected by the Massachusetts Trueness-to-Name Inspection Service.

SUMMER AND FALL APPLES

Ripening Late June Through September

See Ripening Order Table this page.

These Apples have been neglected in commercial plantings and are now proving, in many cases, more profitable than winter varieties. In the home orchard a selection from this list will furnish fresh fruit from early summer until late fall—including new introductions and old home orchard favorites.

Anoka. Red, early bearer, often fruiting second year after transplanted. Large, excellent cooker. One of the best early Apples. Semi-dwarf; just the tree for a small lot.

Early Harvest. Well known, large, early golden yellow. An old home orchard Apple continuing in demand.

Grimes Golden. Spicy, medium size, golden yellow. Firm, crisp, tender flesh. Excellent for sauce, as well as eating from hand. Recommended for every home orchard. Also profitable commercially.

Lodi. Improved Yellow Transparent; larger, ripening a few days later. Growing in commercial demand.

Maiden Blush. Medium to large. Yellow background with red blush. Family favorite. Ripens mid-summer.

Red June. Popular in the family orchard. Red. Medium size.

Red Summer Rambo. This red strain is doing for Summer Rambo what Red Yorking has done for the famous old York Imperial. Differs from the regular Summer Rambo by having much more color and coloring earlier, selling for better prices.

Smokehouse. Old home orchard favorite. Medium to large, firm, greenish background, red striped. Ripens over a period of several weeks.

Summer Rambo. In Virginia and adjoining states there is possibly no other Apple found in so many orchards. So well known that no home orchard is considered complete without it. Also popular with many commercial growers as it is always in demand at good prices. August. Large red striped, greenish yellow background. Makes delicious sauce.

Williams Early Red. A profitable red commercial summer Apple. Large for an Apple of its season. Ripens around middle of July. Prolific, early bearer. Fruit beautiful. Good shipper.

Yellow Transparent. Well known, transparent to golden yellow. Late June. Favorite for sauce. Early bearer. Gradually being displaced commercially by its offspring, Lodi, which is larger.

ENJOY FRESH FRUIT THROUGHOUT THE YEAR

By careful selection, Apples can be harvested from your trees over a period of six months and the better winter ones kept in storage until the new crop is harvested—making fresh fruit possible throughout the year.

Our list has been carefully made up after many years of growing and testing. The newer, better varieties are listed only after having been thoroughly tested and found to excel older ones of the same class.

Planters differ as to choice of Apples, size of trees, time to plant, etc. The New Double Red Strains are displacing the older ones commercially, but for benefit of home orchard planters many old family favorites are still offered. Experienced planters are taking pollination into consideration in planting new orchards or even in replanting. So an assortment is recommended for this purpose. See Planting Table page 15.

Ripening Order Summer and Fall Apples

Variety	Color	Variety	Color
Yellow Transparent	Yellow	Summer Rambo	Red striped
Lodi	Yellow	Red Summer Rambo	Red
Early Harvest	Golden Yellow	Maiden Blush	Red blushed
Red June	Red	Smokehouse	Red striped
Anoka	Red	Grimes Golden	Golden Yellow
Williams Early Red	Red		

HOME SUMMER AND FALL APPLE COLLECTION

Consisting of 1 Each:

Also available in 2-year, 4-6 ft. size at \$6.65.

Postpaid to points East of the Mississippi.

Lodi (Improved Early Transparent)

STANDARD APPLE TREE PRICES

	1 to 5 Each	5 to 10 Each	10 to 30 Each	30 to 50 Each
2-yr., 4-6 ft. branched	\$2.00	\$1.80	\$1.60	\$1.40
2-yr., 3-4 ft. branched	1.45	1.30	1.20	1.00
1-yr., 4-6 ft. whips	1.70	1.50	1.35	1.20
1-yr., 3-4 ft. whips	1.20	1.10	1.00	.90
3 and 4-yr., 6-7 ft.				

Jumbo Size 2.90 2.75 2.60 2.40

These Jumbo trees are available in most varieties offered in this catalog.

NOTE—The height of our trees is listed conservatively as frequently many of the stronger growing varieties have more height than given above.

NOTE—Following Special Apples now being offered at no advance in price over standard varieties: Vance Delicious, Double Red Rome Strain 262 and Double Red Stayman Strain 201.

On quantities of 50 or more, submit your list for Commercial Growers' Prices.

WAYNESBORO, VIRGINIA

Improved Double Red

DELICIOUS, DOUBLE RED STRAINS

Best known, most extensively planted Apple. Large, pointed, semi-sweet. No Apple has produced as many Red Strains as Delicious. Much time and thought have been given to testing and selecting the most desirable ones. Each has some merit, but all strains are not needed as the better qualities are to be had in Vance, Western Strain, Early Richared and Eastern Strain. See illustration front cover.

VANCE DELICIOUS

Early Double Red

Solid Bright Red—Early Coloring—Higher Prices

Generally Considered the Best of the Double Red Delicious Sports

Discovery. Twenty-six years ago the late R. G. Vance discovered in his orchard in Albemarle County, Virginia, a branch on a standard Delicious tree producing solid bright red Apples coloring at least two weeks ahead of other fruit on the tree. After observing the highly colored Apples on this branch for two years in succession, Mr. Vance started top-working trees in his own orchard and made graftwood available to Waynesboro Nurseries—thus introducing a New Double Red Delicious Strain, named by us in honor of Mr. Vance.

SELLS FOR HIGHER PRICES BECAUSE OF EXCELLENT BRIGHT RED COLOR AND EARLY MATURITY

This is borne out in a letter received from Mr. Albert R. Vance, present owner of the orchard in which the famous Vance Delicious originated. We quote in part:

Waynesboro Nurseries, Inc.,
Waynesboro, Virginia
Gentlemen:

In addition to the so-called Vance Delicious, we have growing two of the best known Red Sport Delicious varieties along with the regular common Red Delicious.

On September 1 we started packing and shipping our Vance Delicious, which at that time was a solid bright red. We had ready sales for entire crop of 5,000 bushels at satisfactory prices, and were compelled to turn down orders while waiting for a week to ten days for proper coloring of the other two Red Sport Delicious. During this ten-day delay waiting for color there was a substantial decline in market prices.

Had our entire crop been this so-called Vance Delicious, it would have been sold in early September at satisfactory prices, instead of much lower prices at later dates.

This season has convinced me that the Vance Delicious is the most desirable of the Red Delicious Sports for the East. Our future plantings will be limited to this variety of Red Delicious.

Yours truly,

(Signed) ALBERT R. VANCE

VANCE pronounced **extremely promising** by Senator Harry F. Byrd, one of the first commercial growers to plant this strain in large quantities. Also, Leo G. Klein, Research Associate, New York State Agricultural Experiment Station, in commenting on Vance, reported that this strain colored and ripened earlier than other strains of Delicious and expressed interest in directing growers to a source of supply of Vance trees.

VANCE possesses normal Delicious qualities, plus earlier and better coloring. Adapted to both commercial and home orchard planting.

Vance
Delicious

DELICIOUS, DOUBLE RED

Richared or Western Strain

Originated in Northwest. One of the first red sports introduced. Solid bright red. Colors somewhat later than Early Richared.

Early Richared

Solid bright red, coloring earlier than the original Richared Delicious, which means earlier marketing and better prices.

Eastern Strain

Differs from Vance, Richared and Early Richared Strains by showing traces of stripes.

STAYMAN, DOUBLE RED STRAINS

Large, juicy, crisp, commercial winter Apple; also home orchard favorite. The old original Stayman, now discarded, was lacking in color, which has been corrected in Double Red Strains as follows:

Scarlet Red - Eastern Strain. Brilliant red. Same size and bearing habits as old Stayman; better keeper. Its solid red color demands good prices.

Double Red No. 201 Western Strain. Outstanding among Double Red Stayman Strains. Taking the lead in commercial sections. Solid, bright red. Early coloring, may be harvested in advance of the old Stayman; same size, eating and cooking qualities. Illustrated page 5.

STANDARD APPLE TREE PRICES

WAYNESBORO NURSERIES

POLLINATION. Apples such as Winesap, Double Red Stayman and N. W. Greening do not fruit consistently unless pollinated by other varieties. Among the good pollinators are Double Red Delicious, Grimes Golden, Double Red Jonathan, Lowry, Yellow Delicious and Yorking.

Apple Strains . . .

Double Red
Stayman
No. 201
See Page 4

RED YORKING

*The York
Supreme*

One of the first Apples to be honored with U. S. Plant Patent, No. 125. Inheriting all the good qualities of the famous old York Imperial and 100% more color, which appears earlier in the season.

Double Red
Rome Strain 262

ROME, DOUBLE RED STRAINS

Double Red No. 262 Strain. New Northwestern Strain. Sport of the popular well-known Rome Beauty, differing from old Rome by being solid, bright red and coloring earlier. Growing in popularity with both growers and the trade. Ranks near the top in new commercial plantings. Generally recognized as best of all Red Romes.

Double Red C&O Strain. Another well-known Northwestern Strain. Bright, solid red. Heavily planted in the East, as well as the Northwest.

SEE PLANTING TABLE PAGE 15

YORKING'S CHIEF ADVANTAGES

- 1. Color.** Every Apple being a bright cherry-red with no trace of stripes.
- 2. Colors Early.** May be harvested two weeks ahead of York, resulting in better prices.
- 3. Quicker Sales.** A basket or box of No. 1 Apples, every Apple being a solid red, will sell more readily than fruit with just enough color to pass inspection.
- 4. More No. 1 Apples.** There being no culls due to lack of color, pack will be much larger and profit greater.
- 5. Apparently More Prolific.** Because of having a larger leaf and more feeding capacity, it appears that the Yorking tree is going to be more productive, the fruit being uniform in size and in large volume.
- 6. Combination Apple.** Top-rating as a processing Apple. Due to its bright red color, excellent quality, and uniform size, it is also in popular demand on the fresh fruit market.

YORKING has proved to be a great discovery, introduced at a time when there was need of better color and quality to meet increasing competition from citrus fruits and Apples from other sections.

Senator Harry F. Byrd, in addressing 5,000 fruit growers at his annual picnic, reported finding Yorking superior to all Red York strains tested. He also reported **Vance Delicious** as extremely promising and **Double Red Rome 262** a good early strain.

Mr. J. Hannon Morris, one of the most successful growers of Augusta county, Virginia, depended much on York Imperial, but switched to Red Yorking when trees first became available twenty years ago and continues to plant. Red Yorking was found not only tops as a processing Apple but makes a fancy fresh fruit pack, affording two outlets.

York Imperial

Yorking

U.S. PLANT PATENT No. 125, MAY 29, 1935

The above print was made from a drawing of average samples of the fruit of Yorking and York. While every Yorking on the tree was a solid red, many of the Yorks were green and others only showed traces of red stripes.

WAYNESBORO, VIRGINIA

Best Selections of WINTER APPLES

Term applies to varieties harvested in late fall and suitable for storing for winter use. The long keeping quality of these Apples is responsible for their making up a large percent of home and commercial orchard plantings.

Delicious, Double Red. See page 4.

→ **Jonathan, Double Red.** Improved, well-known, solid bright red. Popular in both commercial and home orchard plantings. Excellent cooker. Early winter.

→ **Lowry.** Resembles Delicious in quality; mild sub-acid. Medium to large, mahogany-red. Remarkable keeper; keeping even better than Delicious in cold storage. Frequently escapes late spring frosts because of its long blooming period and hardness.

→ **N. W. Greening.** Large, greenish yellow. Good cooker. Due to its early, prolific bearing habits and being in demand as a processor, N. W. Greening is proving profitable and being more extensively planted.

Rome, Double Red Strains. See page 5.

Stayman, Double Red Strains. See page 4.

→ **Virginia Beauty.** Native of the state. An Apple of which Virginia is proud. Late fall and early winter. Resembles Red Delicious in quality and shape but darker color. Excellent quality.

**Yellow
Delicious**

→ **Winesap, Old Virginia Strain.** Comes as near being adapted to all soils and climates as any Apple we know. Medium size, red skin slightly streaked with yellow. Flesh firm, crisp, sub-acid. Good keeper, making it popular for home and commercial orchards.

→ **Yellow Delicious.** Also known as Golden Delicious. Conical shape, golden yellow. Early, prolific bearer. In demand for home orchards; also ranks near the top commercially. Good for processing. Long keeper. Recommended as a cross pollinator.

→ **York Imperial.** At one time the most extensively planted commercial Apple in famous Shenandoah Valley and Blue Ridge area of Virginia, West Virginia and Pennsylvania. Greenish yellow background, red striped cheek. Prolific bearer, excellent keeper. Being displaced by its offspring, Yorking, a Solid Red York. See illustration page 5.

6-TREE HOME APPLE ORCHARD

Ripening from earliest to latest, affording fresh fruit throughout the year. We recommend the following as being especially suited for a home orchard collection:

Early Yellow Transparent
Summer Rambo
Double Red Delicious

Double Red Stayman
Winesap, Old Virginia Strain
Yellow Delicious

One each of above varieties—total six trees

2-Year, 4-6 ft. Size

Postpaid to points east of the Mississippi. **\$11.65**

Also available in 3-year, 6-7 ft. size at \$16.50, express collect.

SAVE TIME IN GROWING FRUIT BY PLANTING SUPER AND BEARING SIZE TREES

Will furnish fruit much earlier than smaller, younger trees. Recommended for replanting where pollination is a problem; also for planting home orchards. At this time we have available the following varieties in large trees, but supply is limited, so please mention second choice.

Anoka	M. B. Twig
*Delicious, Double Red	McIntosh
Duchess, Early Double Red	N. W. Greening
Early Harvest	Stayman, Double Red
*Jonathan, Double Red	Winesap
Lodi	*Yellow Transparent
*Lowry	York Imperial
Maiden Blush	Yorking

*Indicates varieties especially recommended for pollination.

PRICES—5 and 6-Yr. Trees

	1 to 3 Each	3 to 10 Each	10 to 30 Each
5-yr., 7- 8 ft. Super Size	\$4.75	\$4.50	\$4.25
6-yr., 8-10 ft. Bearing Size	6.00	5.75	5.50

**Virginia
Winesap**

WAYNESBORO NURSERIES

A One-Tree Apple Orchard

Furnishing Fruit From Early To Late

5-IN-1 TREE

Made possible by grafting Apples ripening earliest to latest. Ideal where space can accommodate only one, two or three trees. The varieties grafted on 5-In-1 Trees will vary, but generally consist of Yellow Transparent, Summer Rambo, Stayman, Yellow Delicious, and Red Delicious. **3-yr., 4-5 ft. size, \$3.50 each in lots of 1 to 3; 3 or more, \$3.25 each. 3-yr., 5-6 ft. size, \$4.50 each in lots of 1 to 3; 3 or more, \$4.25 each.**

4-IN-1 TREE

Produced in same manner as 5-In-1, but having one less variety. **3-yr., 4-5 ft. size, \$3.00 each in lots of 1 to 3; 3 or more, \$2.75 each.**

3-IN-1 TREE

Consists of three choice Apples ripening at different seasons. **3-yr., 4-5 ft. size, \$2.50 each in lots of 1 to 3; 3 or more, \$2.25 each.**

Dwarf

APPLE TREES

Decorative and Fruitful

**Early Bearing
Adapted to Limited Space
Fruit Easily Harvested
Full Size Fruit**

Made possible by double grafting, using a section of dwarf stock, which dwarfs the tree. Produces an early-bearing dwarf tree, frequently bearing second year after transplanted. Trees require less space, fruit is easily harvested. Especially desirable for small home grounds, where trees not more than 10 to 15 ft. high are desirable.

Dwarf Apple Trees available in following varieties:

Delicious, Double Red	Summer Rambo
Stayman, Double Red	Yellow Delicious
	Yellow Transparent

1 and 2-yr., 2-3 ft. trees, \$2.75 each in lots of 1 to 5; 5 to 10, \$2.50 each.

2-yr., 3-4 ft. trees, \$3.25 each in lots of 1 to 5; 5 to 10, \$3.15 each.

2-yr., 4-5 ft. trees, \$4.00 each in lots of 1 to 5; 5 to 10, \$3.75 each.

SAVE MOUSE-DAMAGED TREES

By bridge grafting, using 2-year Apple seedlings or 1-year grafted whips selected for bridge grafting. **3-4 ft. size, 30c each in lots of 50 to 300; 300 up, 25c each.**

Dwarf Apple Tree

Waynesboro

Standard Commercial and

MODERN PEACH GROWING

The Peach, an old favorite in the fruit family, is now making new friends. Recent chemical discoveries have simplified spraying, market expansion has been made possible by modern methods of freezing, home freezing units, frozen food locker plants, new methods of canning, keeping fruit fresh in storage, and delivering pre-chilled tree-ripened fruit to the market. Planting of properly located orchards consisting of improved varieties has promise of being a profitable investment.

PEACHES FOR THE MODERN MARKET. Population in the South has advanced with industrial development. Improved highway and hauling facilities are enabling markets, large and small, to provide consumers with fresh fruit daily from the orchard. For such a market it is advisable to plant Peaches of better quality, ripening over a longer period.

FROZEN PEACHES IN GREAT DEMAND. Frozen fruit processing plants have created a new, profitable market for Peaches. Home freezers and frozen food lockers have likewise extended the local market for fresh fruit. Freezing qualities of varieties are being considered and referred to in Planting Table on page 10.

Belle of
Georgia

ADVANTAGES IN PLANTING WAYNESBORO NURSERIES' TREES

1. We are large growers with thirty-five years experience in growing trees and serving planters.
2. Located in commercial fruit belt, making possible studying varieties and cutting budwood from bearing orchards.
3. Deep, loamy, fertile soil, adapted to growing vigorous trees with excellent root system.
4. New varieties made available after being thoroughly tested in area served.
5. Our fleet of trucks makes possible safe and prompt deliveries of commercial orders in nearby sections. Mail orders may be shipped parcel post or express.

Hale-

Also available in 3-4 ft. size at \$7.65.
Postpaid to points east of the Mississippi.

PEACHES

Home Orchard Varieties

We Offer the Following *Choice Peaches*

Note—See page 10 for ripening order of Peaches.

*Indicates good freezing qualities.

**Indicates excellent freezing qualities.

7 **Amber Gem.** A most desirable commercial clingstone canner. Now being planted in Michigan, West Virginia and northern Virginia. Long, medium size, beautiful color. Firm, yellow flesh, high quality. Early August.

7 **Belle of Georgia.** An old Peach unsurpassed as a white freestone for home and commercial use. Large, white background, red cheek. Sweet, excellent peachy flavor. August.

7 **Blake.** New Jersey Experiment Station introduction. Yellow freestone. Elberta type; week earlier, higher color, better shipping qualities and excellent freezer. August.

7 **Cardinal.** U. S. D. A. introduction, ripening around July 5th. Clingstone, medium size. Yellow with red blush. Flesh yellow, firm, medium texture.

7 **Coronet.** New, early yellow freestone introduction by U. S. Department of Agriculture. Yellow background with bright, attractive red blush. Firm but melting, smooth textured. Vigorous, productive.

7 **Dixigem.** Originated by U. S. Experiment Station, Fort Valley, Georgia. Yellow freestone ripening just ahead of Golden Jubilee. Medium size, bright red blush on attractive yellow background. Fine textured, excellent flavor. Vigorous, prolific.

7 **Dixired.** U. S. D. A. introduction. Medium size, yellow clingstone. Acquires attractive red blush long before ready to pick. Especially desirable because of its earliness and high quality.

7 **Early-Red-Fre.** Large white freestone ripening around July 15th. Good color, prolific.

7 **Elberta.** Continues to be a leading commercial Peach. Not the best quality, but its size, color and firmness combine to give it a prominent place in both commercial and home orchard planting. Yellow freestone, red cheek. Mid-August. The yellow freestone Peach season has been extended by recent introductions, furnishing Peaches of excellent quality from early July until late August. See Ripening Table page 10.

7 **Golden Jubilee.** Early, yellow freestone. Good quality. Excellent for home consumption. Lacking in firmness demanded in a commercial Peach. July.

Elberta

7 **Hale-Haven.** Large, yellow freestone. Introduced by Michigan State Experiment Station. Two weeks earlier than Elberta, making an excellent combination with Redhaven and Elberta. Ranks high in number of trees being planted.

Peach Tree Prices

New Ranger

PEACHES

that Produce!

- ➔ **Heath Cling.** Large, late, white clingstone pickling Peach. September.
- ➔ **Indian.** Solid red cling, red to the stone, firm and juicy. Medium to large. Popular for pickling. September.
- ➔ **J. H. Hale.** Firm, yellow freestone. Golden yellow skin, red cheek. Demands top prices on market because of its large size and shipping qualities. Ranks high commercially. August.
- ➔ **Keystone.** Recently introduced by U. S. D. A. Experiment Station, Fort Valley, Georgia. Large, highly colored, round. Yellow freestone. Firm, good flavor. Vigorous, productive. Especially adapted to southern Peach areas. Follows Golden Jubilee. See illustration front cover.
- ➔ **Krummel.** Large, yellow freestone with red cheek. Early October.
- ➔ **Mayflower.** Earliest Peach known. White clingstone. Sells because of its earliness and excellent color. June.
- ➔ **Ranger.** New yellow freestone introduced by U. S. D. A. Medium to large, highly colored. Flesh medium firm, good flavor. Vigorous, prolific. Especially well suited to home consumption and local markets. Late July.
- ➔ **Redcap.** New clingstone. Medium size, round; red blush. Flesh yellow, firm, good flavor. Productive. Early July.
- ➔ **Red Globe.** Introduced in 1954 by U. S. D. A. Large yellow freestone. Outstanding because of its high color and firm flesh. Ripens with Hale-Haven.
- ➔ **Redhaven.** Bright red coloring on yellow background. Smooth, almost fuzzless. Firm yellow freestone. Ripens uniformly; should be thinned for best results. Strong grower and prolific. Has produced full crops in orchards where other fruit buds were winter-killed. Five days earlier than Golden Jubilee. Ranks near top in commercial plantings.
- ➔ **Redskin.** Introduced by Maryland University Experiment Station. Cross between Hale and Elberta. Solid bright red. Yellow freestone. Firm, good shipper, excellent quality. Profitable commercially. Few days ahead of Elberta.
- ➔ **Rio-Oso-Gem.** Enormous, solid red. Yellow freestone ripening ten days later than Elberta. Noted for excellent quality, high color and firmness in shipping. Originated on Pacific Coast but becoming famous in the East. Claimed by some as world's best late Peach.
- ➔ **Shipper's Late Red.** Large, round, yellow freestone with attractive red coloring. Few days later than Elberta; better quality, sells for as much or more. Rates high as commercial Peach; equally as popular for the home orchard. Hardy, strong grower, prolific.
- ➔ **Slappey.** Sweet, highly flavored yellow freestone. Purely a home orchard Peach. Considered best of all as a canner as it retains its sweetness and excellent flavor. Late July.
- ➔ **South Haven.** Introduced by Michigan Experiment Station. One of the first results of the efforts of various state and federal experiment stations to introduce Peaches of better quality. Hardy in bud, vigorous. Large yellow freestone, excellent quality. Follows Hale-Haven.
- ➔ **Sullivan's Early Elberta.** Being discarded in favor of Blake.
- ➔ **Summercrest.** Introduced by New Jersey Experiment Station. Midseason yellow freestone with good color, sweet flavor. Exceptionally vigorous. Ripens with Belle of Georgia.
- ➔ **Sunhigh.** A New Jersey Experiment Station Peach, ripening fifteen days before Elberta. Large, bright red, coloring all over before it ripens. Yellow flesh; freestone. Firm shipper. Top-ranking commercial Peach.
- ➔ **Triogem.** Introduced by New Jersey Experiment Station. Yellow freestone of high quality. Red color over entire Peach. Follows Golden Jubilee. Trees semi-dwarf growers.

Protect Your Peach Trees From Borers by Using DDT—See page 24-C.

PEACHES

Ripening Order, Class, Freezing Qualities

The ripening date given is for a normal season at Waynesboro, Virginia. Some years Peaches ripen earlier and some later. Farther south the ripening period is earlier; farther north, later.

Note.—C indicates Clingstone; F, Freestone.

*Indicates good freezing qualities.

**Indicates excellent freezing qualities.

Shropshire Damson Early, Prolific Bearers—Easily Grown—Should Be in Every Home Orchard

There are two distinct types of Plums—the Oriental and European. The Oriental are generally quite juicy and tender, best suited to serving raw, fresh from the tree. The European are the firmer types, used for canning, preserving, butters, drying, etc. The Prune family belongs to the European type Plums. For best results, we recommend planting two or more varieties, providing cross pollination.

Abundance. One of the best known Orientals. Lemon-yellow, overspread with bright cherry-red. Oblong, tapering to a point. Flesh orange-yellow, melting, rich and highly aromatic. Abundant, annual bearer. August.

Burbank. Long-stemmed favorite. Oriental. Medium size, nearly globular. Purplish red with deep yellow flesh. Very sweet, with a peculiar, agreeable flavor. Early bearer. August.

Green Gage. European type. Old favorite for home use because of its excellent quality and adaptability to canning and preserving. Egg-shaped. Purplish green skin.

Mammoth Golden. Large, beautiful, delicious golden hybrid Plum. Freestone. Early August.

Methley. Recent introduction which is rapidly gaining in popularity due to its fine quality and attractive appearance. Fruit medium to large, reddish purple with red flesh. Juicy, sweet, with distinctive flavor. Regular bearer. Adapted to wide range of soils. July.

Red June. Early red Oriental. Usually a sure cropper because of its late bloom. Very good Plum of its season.

Shropshire Damson. Improved Blue Damson, larger than old type, but possessing all of its good qualities. At one time the Damson was considered only a home orchard fruit but is now being grown commercially for jams and preserves. Late bloomer, early bearer, sure cropper.

Stanley Prune. Improved Prune introduced by New York Experiment Station and considered by many as the best for home use. Also being planted commercially for local processing plants or for fresh fruit markets. Large, firm, dark blue, juicy, fine-grained, tender, sweet. Late August. See illustration front cover.

Methley Plum

Cavalier Nectarine

HOME ORCHARD Special!

As illustrated on front cover.

- 1 **Double Red Delicious Apple**. 2-yr., 3-4 ft. size.
- 1 **New Keystone Peach**. 3-4 ft. size.
- 1 **Stanley Prune**. 3-4 ft. size.
- 1 **Bartlett Pear**. 3-4 ft. size.
- 1 **Early Richmond Pie Cherry**. 3-4 ft. size.
- 2 **Early Blue Fredonia Grapes**. 2-yr.
- 50 **New Dixieland Strawberry Plants**

This Entire Front Cover Fruit Group

Postpaid to points east of the Mississippi.

Note.—For description of these fruits, see elsewhere in this catalog.

NECTARINES

A delicious fruit listed by some as a fuzzless Peach. Tree habits and quality of fruit similar to those of the Peach with exception of fruit being smooth like Plum. New improved introductions have stimulated commercial culture, which is proving profitable.

We offer the two following new Nectarines introduced by Virginia Agricultural Experiment Station and recommended as being vigorous, productive, and resistant to brown rot.

Cavalier. Yellow-fleshed freestone with red and yellow skin. Ripens eight days before Elberta Peach.

Redchief. White-fleshed freestone. Highly colored skin. Ripens few days ahead of Cavalier.

NECTARINE PRICES

	1 to 5 Each	5 to 10 Each	10 to 30 Each
4-6 ft. . .	\$2.30	\$2.20	\$2.00
3-4 ft. . .	2.00	1.85	1.60

New NECTARINE OFFER

Consisting of 1 each Cavalier and Redchief, total two 4-6 ft. trees for \$4.85, postpaid to points east of the Mississippi.

Large Montmorency Pie Cherry

ALL PURPOSE

Two Distinct Classes Pie and Sweet Cherries

The Large Montmorency is the most popular Pie Cherry. Outstanding among the Sweets is the Greenwood, a dark red; and the Napoleon, a light wax. All others on our list are also worthy of a place on any table.

New processes of freezing afford this fruit great possibilities, as fresh Cherries may be served throughout the year. The frozen pie industry is now using large quantities of Pie Cherries, increasing Cherry consumption. As a commercial fruit it is coming into its own, but if you are not in position to grow Cherries commercially, why not plant on the home grounds, where you can enjoy blossoms and shade, as well as fruit for family use?

Pollination. Sweet Cherries bear heavier and more regularly if cross pollination is provided for. Planting two or more varieties is recommended. Pie Cherries are generally self-fruitful.

PIE CHERRIES

Early Richmond. Earliest pie Cherry. Bright red, round, medium size, young prolific bearer. See illustration front cover.

Large Montmorency. The leading pie Cherry and most extensively planted of all Cherries. Large, midseason, dark red. Small seed, firm flesh. Ninety per cent of all frozen Cherries used for pies are Montmorency. Also just as popular in the home orchard. Makes beautiful lawn tree.

PRICES ON PIE CHERRIES

	1 to 5 Each	5 to 10 Each	10 to 30 Each	30 to 50 Each
5-6 ft. Jumbo	\$2.75	\$2.65	\$2.50	\$2.35
4-5 ft.	2.30	2.20	2.00	1.80
3-4 ft.	2.00	1.85	1.60	1.45
2-3 ft.	1.60	1.45	1.30	1.20

Note.—On quantities of more than 50, write for commercial growers' prices.

Ornamental and Fruitful

— HANSEN HYBRID BUSH CHERRY

Purplish red, sweet fruit, one-half inch or more in diameter. Excellent for serving fresh and for jelly.

Dwarf, approximately 3 feet in height and spread. Ornamental as well as fruitful, being covered with white flowers in spring, foliage turning red in autumn. Ripens early July.

3-year bearing size bushes: \$1.50 each; \$15.00 per doz.

Bush Cherry

CHERRIES...

SWEET CHERRIES

STANDARD SWEET CHERRIES

- **Black Tartarian.** Large, purplish black. Tender, juicy, very rich. Vigorous grower, prolific bearer. Early.
- **Governor Wood.** Famous early wax. Heart-shaped. Light yellow flushed with red. Firm and sweet. Vigorous, productive.
- **Napoleon.** Most popular Wax Cherry. Two weeks later than Governor Wood; larger, better shipper. Beautiful golden background, bright red cheek.

PRICES ON STANDARD SWEET CHERRIES

	1-5 Each	5-10 Each	10-30 Each	30-50 Each
6-7 ft. Jumbo	\$3.25	\$3.15	\$3.00	\$2.85

3-4 ft.	2.25	2.15	2.00	1.85

Note.—On quantities of more than 50, write for commercial growers' prices.

PRIZE SUPER SWEET CHERRIES

- **Greenwood.** Enormous mahogany-red, sweet fruit; small seed. Firm, excellent shipper, as well as an ideal Cherry for roadside stands and home use. Vigorous grower, prolific bearer. Apparently adapted to a wide range of soils and can be grown with a minimum amount of attention. However, it responds well to modern cultural practices.
- **Windsor.** Giant, late, juicy, firm. Prolific. Blackish maroon. Recommended for cross pollination. Planted commercially and for home use.

CHERRIES ARE ORNAMENTAL AS WELL AS FRUITFUL—

Producing Blossoms,
Fruit and Shade

WAYNESBORO, VIRGINIA

Napoleon

4-TREE HOME CHERRY ORCHARD

Consisting of one each Early Richmond and Large Montmorency pie Cherries; also one each Napoleon Yellow Wax and Greenwood, Dark Red—two of the best Sweets.

All 4 trees in 3-4 ft. size—only \$9.35.

Postpaid to points east of the Mississippi.

Greenwood

Sweet, Juicy PEARS

MOST POPULAR STANDARD PEARS

The Pears we offer have been thoroughly tested and found adapted to areas served. Selected to furnish fresh fruit from July to January.

Unfortunately, blight has prevented more extensive Pear culture. This is now being overcome with blight-resistant Orient.

ORIENT BLIGHT-RESISTANT PEAR

Introduced by Tennessee Experiment Station. Crossing Chinese and European strains produces a blight-resistant Pear of good quality, adapted to areas where blight makes others impossible. Large, vigorous trees bearing enormous crops. Round, yellowish background with red blush. Juicy, melting, mild, sub-acid flavor. Creamy white flesh. Excellent for canning. Late August. If troubled with Pear blight, be sure with Orient. Excellent pollinator for Bartlett and Seckel, which require cross pollination.

Orient

PRICES ON ORIENT PEAR

6-7 ft. Jumbo size	3.50	3.35	3.20

Note.—Ask for commercial prices on larger quantities

Seckel Pear

Seckel. The famous little brown, rusty-colored, sweet Pear. Fine-grained; excellent quality. Ideal for pickling and canning whole, as well as enjoyed when served fresh from tree. Late September.

Bartlett. Well-known, large, long, rich golden yellow with red cheek. Thin-skinned, buttery and melting; rich musky flavor. Strong grower, bears young and abundantly. August. See illustration front cover.

Clapp's Favorite. An old variety resembling Bartlett in shape, color, and quality, ripening a month earlier.

Kieffer. Popular canner. Possibly planted in more home orchards than any other Pear. Less subject to blight than many, strong grower, early and prolific bearer. Large bell-shaped; golden background with red blush. Recommended for the home orchard, local markets, and roadside stands. Late September.

PRICES ON STANDARD PEARS

IDEAL HOME ORCHARD STANDARD PEAR COLLECTION

Consisting of:

1 Orient 1 Bartlett 1 Seckel

Total—3 trees, 3-4 ft. size, \$6.85.

Postpaid to points east of the Mississippi.

EARLY BEARING DWARF PEARS

Frequently used in landscape plantings for ornamental effect, as well as for growing fruit. Early bearing. Adapted to limited space.

Bartlett and Seckel. 2-yr., 3-4 ft., \$3.25 each in lots of 1 to 5; 5 or more, \$3.00 each. 2-yr., 2-3 ft., \$2.75 each in lots of 1 to 5; 5 or more, \$2.50 each.

Specials for the Garden

FIGS (Not Recommended North of Virginia)

A southern fruit, grown only in the southern and eastern part of Virginia and in states farther south; not recommended for general planting north of Virginia but may be grown farther north if given winter protection. Delicious Fig preserves will reward you for your efforts. One of the earliest trees to bear, often producing fruit the first year after being transplanted. The Fig is too well known throughout the South to require a detailed description. There are a dozen or more varieties, the **Brown Turkey** and **Celestial** being the most hardy and popular.

Brown Turkey. Dark brown skin covered with thick blue bloom. Flesh red, very delicious flavor. Popular, well-known.

Celestial. An old favorite. Prolific. Light in color. Sweet and excellent. Found in home gardens throughout the South, as well as planted commercially in some sections. Most hardy of all Figs.

HOME FIG OFFER

Consisting of:

1 **Brown Turkey**
1 **Celestial**

Total two trees, 3-4 ft. size— **\$4.95**

Postpaid to points east of the Mississippi.

TRAVIS MULBERRY. Hybrid Black Mulberry, being the largest, sweetest and most delicious. Many people enjoy fresh Mulberries from the tree; others plant them for poultry and birds. 4-6 ft., \$2.30 in lots of 1 to 5; 5 to 10, \$2.20 each; 10 or more, \$2.10 each.

ORIENTAL PERSIMMON. The culture of this delicious fruit has been somewhat curtailed because many are not familiar with it or regard it as a tropical fruit. While it is generally grown commercially in warmer climates, it can be successfully grown in eastern and southern Virginia, along the coastline farther north and generally throughout the South. Delicious fruit, frequently 3 inches in diameter. Large, orange-red, usually seedless, ripening in autumn. 4-6 ft., \$2.75 in lots of 1 to 5; 5 to 10, \$2.65 each; 10 to 30, \$2.50 each.

NATIVE AMERICAN PERSIMMON. A native fruit. Adapted to a wide range of soil and climate. Starts fruiting early, ripening golden brown in autumn, frequently hanging on trees until mid-winter. 4-6 ft. size, \$2.30 each in lots of 1 to 5; 5 or more, \$2.20 each. 6-7 ft., \$3.25 each in lots of 1 to 5; 5 or more, \$3.00 each.

ORANGE QUINCE. Favorite fruit, noted for making Quince honey and tasty preserves. Large, orange-shaped; fine, golden, firm flesh of excellent quality. Best known Quince.

	1-5 Each	5-10 Each
4-6 ft.	\$2.75	\$2.65
3-4 ft.	2.50	2.35

SUPERB HARDY APRICOT

Delicious. Just as hardy and as easily grown as Peaches. Our Russian strain often succeeds where Peaches fail! Medium size, golden yellow. Freestone. Excellent quality. Early bearer.

	1-5 Each	5-10 Each	10-30 Each
4-6 ft.	\$2.30	\$2.20	\$2.00
3-4 ft.	2.00	1.85	1.60

POLLINATION

Most fruit and nut trees bear more consistently when cross pollination is provided for. Planting in lots of two or more is advisable.

Strawberries	1 year	1x3 1/2 feet	9,900

Time required for trees and plants to begin fruiting after being transplanted may vary considerably, depending somewhat on the age and size of plant at time of transplanting, as well as the nature of the soil, care given, the season, and many other conditions. Even some varieties of a class will begin fruiting earlier than others. So the above table gives only approximate bearing ages under normal conditions.

SEEDLESS GRAPES

Produced by Hybridizing.

The city lot does not always afford ample room for all the tree fruits, but not even a lot is required to grow sufficient Grapes for family use. An arbor may be made over the walkway to the garage, the vines may be trained on outbuildings, the fence, or even on a trellis, affording a screen. Our large assortment of varieties will furnish Grapes of different types, ripening throughout the season. Grapes start bearing early—usually the second year after being transplanted—are generally annual bearers and easily grown.

Grapes may be divided into two groups—the bunch varieties, which are grown in all parts of the United States, and the Muscadine cluster class, the culture of which is limited to the South, seldom planted north of Virginia.

SENECA

NEW, HARDY HYBRID CALIFORNIA TYPE GRAPE

A Grape that is entirely different, not just another variety. Early; bunches of good size, tapering and compact. Berries oval and golden yellow. Firm texture and the tender skin can be eaten with the pulp. Midseason. 2-yr., 1-5, \$1.00 each; 5-10, 90c each; 10-30, 80c each.

Note.—Write for commercial growers' prices on above Grapes in larger quantities than quoted.

INTERLAKEN GOLDEN SEEDLESS

New Seedless introduction. Rich, golden yellow. Crisp, solid, sweet. Refreshing, tangy flavor. Hardy, vigorous. Early, ripening a month ahead of Concord. 2-yr., 1-5, \$1.50 each; 5-10, \$1.35 each.

BRONX RED SEEDLESS

A Grand New Hybrid Seedless Grape. Enormous, attractive bunches as much as 12 inches in length. Berries large, crisp and firm. May be eaten with skin, as California Grapes. Vine vigorous and productive. Especially recommended for Virginia and states farther south. 1-5, \$1.25 each; 5-10, \$1.10 each; 10-30, \$1.00 each.

CONCORD BLUE SEEDLESS

Berries smaller than standard Concord; same flavor, ripening season. Early bearer. Introduced by New York Experiment Station. First of a series of Seedless Grapes, including Bronx Seedless and Interlaken Seedless, which we have selected as most promising. While a member of the Seedless family, occasional seeds are produced in Seedless Concord. 2-yr., 1-5, \$1.25 each; 5-10, \$1.10 each; 10-30, \$1.00 each.

WAYNESBORO NURSERIES

STANDARD BUNCH and MUSCADINE VARIETIES

STANDARD BUNCH GRAPES

Carefully selected from thoroughly tested commercial and home vineyard varieties, chosen not only as to quality, but to afford assorted colors ripening at different times.

- **Brighton.** Early dark red. Medium size, thin skin. Flesh tender, sweet and of best quality.
- **Champagne.** Has made an especially good showing in our test vineyard, producing enormous bunches of large, greenish white Grapes which have a delicious flavor and hang on vine until late. Excellent wine Grape.
- **Concord.** Most popular and extensively planted Grape. Blue; large bunches, medium size berries. Best of all for juice. Midseason. It is advisable to plant with Concord other varieties extending the season.
- **Fredonia.** Blue Grape of Concord type, two weeks earlier. Thick skin, resistant to brown rot and attack by bees. Sweet, firm, good shipper and favorite in the home vineyard. See illustration front cover.
- **Lutie.** Very sweet, attractive red Grape. Compact bunches. Thin skin, tender flesh. Midseason.
- **White Niagara.** An old favorite. Best known white Grape. Serves as a standard among the whites as Concord does among the blues. Berries and bunches large. Midseason.

To Be Served Fresh From the Vine, in Juices, Wine and Jelly

Brighton

Niagara

Concord

SOUTHERN MUSCADINES

The famous Grape of the South. May be had in an assortment ripening at different times. As some are not self-pollinating, the male non-fruiting plants are frequently planted with fruiting vines to assure crops. However, new, fruiting, self-pollinating and cross-pollinating varieties are now available—eliminating the need of non-fruiting plants. We recommend planting self-pollinating **Tar-Heel** or the newer **Willard** with Bronze Scuppernong. Hunt, or Thomas to assure full crops.

The Muscadines are hardy in southern and eastern part of Virginia and states farther south. Somewhat more difficult to transplant than bunch Grapes.

- **Bronze Scuppernong.** Very large. Bronze flesh, pulpy, sweet, musky flavor. One of the oldest and best of the Muscadines. September.
- **Hunt.** Early, large, black. Thin skin, excellent flavor. Vigorous, prolific, regular bearer.
- **Thomas.** Reddish purple. Sweet, tender, pleasing flavor. Vigorous and productive. An old standby.

PRICES ON ABOVE MUSCADINES

Tar-Heel

FILL YOUR HOME FREEZER OR FOOD LOCKER WITH BERRIES

Modern home quick-freezing units and public frozen food locker plants make possible fresh, frozen fruits and vegetables throughout the year. It behooves each home owner to provide fruits for his home freezer or locker. Berries require little space and just enough attention to make their culture interesting. Plant not only for home use, but for an increasing commercial demand.

BLUEBERRIES

Giant Cultivated Blueberries

Blueberries have been greatly improved. Giant cultivated varieties are the result of cross breeding the native, wild Blueberries. New hybrids are plump, tender and practically seedless. Large clusters. Plant this delicious fruit and enjoy fresh, frozen Blueberries or frozen pies.

In addition to bearing a profitable crop, the Blueberry is an attractive ornamental shrub which may be planted on the lawn, in shrub borders, used in hedges or even as specimens. Its white flowers, blue berries and autumn colored foliage combine to add charm through most of the summer and fall. Frequently bear second year after transplanted.

SOIL REQUIREMENTS. Blueberries require an acid, humus soil. If your soil is deficient in humus and acidity, we recommend making a heavy application of peat moss, rotted sawdust, decayed leaves, or something of that nature, plus 1 to 2 lbs. per plant application of RHO-ZA-GROW, depending upon size of plants. RHO-ZA-GRO—See page 24-D.

POLLINATION. It is advisable to plant two or more varieties for cross pollination.

SPECIMEN BLUEBERRY PLANTS

	1-5 Each	5-10 Each
3-4 ft.	\$4.50	\$4.25
4-5 ft.	6.00	5.50

Too heavy for parcel post. Our truck delivery service recommended when possible.

SIX LEADING BLUEBERRIES

Listed in ripening order from earliest to latest, beginning early June and continuing through July.

- **Weymouth.** Spreading grower maturing at approximately 4 ft. in height. Attractive berries; medium size. Earliest of all.
- **Stanley.** Erect, vigorous grower. Berries medium to large, good quality. Early midseason.
- **Atlantic.** One of the newer midseason varieties. Vigorous, spreading bush. Very productive. Berries large.
- **Jersey.** Vigorous, upright grower. Large berries. Reliable producer, excellent shipper.
- **Pemberton.** Vigorous, upright. Large berries. Late.
- **Burlington.** New, late-ripening Blueberry. Vigorous, spreading bush. Medium size berries of attractive color and high in dessert quality.

BLUEBERRY PRICES

THORNLESS BOYSENBERRIES

HUGE, DELICIOUS HYBRID FRUIT

Enormous size, excellent quality, thornless and prolific. Produced by cross breeding Raspberry, Blackberry and Loganberry. Delicious served fresh, frozen, canned or in jam.

Excellent for freezing, retaining its natural flavor and sweetness. Sells for top prices on the market but a little soft for long shipment. Unique, rich flavor. Almost seedless. Thornless, easy to pick. Color a pleasing purple.

THORNLESS BOYSENBERRY PRICES

ONE EACH of six varieties we list—Total Six Giant Hybrid Blueberries. 3-yr., 12-18 in. Postpaid to points east of the Mississippi, for

TWO EACH—Total 12 plants, 3-yr., 12-18 in. size. Shipped Express Collect, for

NEW BAILEY BLACKBERRY

Introduced by New York State Experiment Station.

Upright — Large — Sweet — Hardy — Early Bearer—No Blanks or Sterile Plants This is the Blackberry we have been hoping for as other varieties have been producing disappointing crops. Bailey being top-rating and most prolific, we are discontinuing all others.

Prices 2-yr., transplants: 6 for \$3.00; 12 for \$5.50; 25 for \$10.00; 50 for \$19.00; 100 for \$34.50.

WAYNESBORO NURSERIES

RASPBERRIES

There are two distinct classes of Raspberries—the **Blackcap** and the **Red**; the Blackcap being grown over a large part of the United States, while culture of the Red is more or less restricted to the coldest part. Here in Virginia both are grown.

HOME GARDEN RASPBERRY OFFER

25 **Cumberland**. Favorite Blackcap.

25 **Latham**. Popular Red.

Total 50 Raspberry plants for \$8.35. Postpaid to points east of the Mississippi.

EVERBEARING INDIAN SUMMER RASPBERRY

Red. Best of all Everbearers. Introduced by New York Experiment Station and now being planted from Maine to Florida. Produces enormous crop in early spring, repeating in the fall. Large, conical, firm, excellent quality. Especially suited for home use but also planted commercially. Bears first season.

➤ **INDIAN SUMMER PRICES:** 6 for \$2.25; 12 for \$3.25; 25 for \$5.25; 50 for \$9.50; 100 for \$16.00; 250 for \$35.00; 500 for \$60.00; 1000 for \$95.00.

STANDARD RED RASPBERRIES

➤ **Latham**. Brilliant red, mosaic-resistant. Good shipper and popular for the home garden. Suitable for serving fresh, frozen, or in jams. Rates as high among Reds as Cumberland does among Blackcaps.

➤ **Sunrise**. A new Red introduced by U. S. Department of Agriculture. Very early with a long picking season, making it ideal for the home garden. Hardy. Flavor and quality the best. Especially adapted to the South where not all Red Raspberries are successful.

STANDARD RED RASPBERRY PRICES: 6 for \$2.15; 12 for \$3.15; 25 for \$4.95; 50 for \$8.55; 100 for \$14.85; 250 for \$32.05; 500 for \$51.75; 1000 for \$90.00.

BLACKCAP RASPBERRIES

➤ **Cumberland**. Outstanding among Blackcaps. Standard commercial variety, as well as popular in the home garden. Large, purplish black, prolific. Firm, good quality. Most extensively grown Raspberry, succeeding over a wide area. Let your main crop of Blackcaps be Cumberland.

➤ **Logan**. A most dependable Blackcap. Equally as large as Cumberland. A week earlier, prolonging the fresh fruit season. Heavy yielder.

BLACKCAP PRICES: 6 for \$1.90; 12 for \$2.80; 25 for \$4.40; 50 for \$7.60; 100 for \$13.20; 250 for \$28.50; 500 for \$46.00; 1000 for \$80.00.

Indian Summer

Latham Raspberry

Cumberland

Lucretia Dewberry

✓ LUCRETIA DEWBERRY

Often referred to as a low-growing Blackberry. Lucretia is the most popular and satisfactory Dewberry—large fruit often measuring 1½ inches in length, sweet, highly flavored.

PRICES: 6 for \$1.80; 12 for \$2.60; 25 for \$4.10; 50 for \$7.10; 100 for \$12.35; 250 for \$26.80; 500 for \$43.10; 1000 for \$75.00.

Red Rich

SUPERFECTION

The New Superfection is all the name implies. Berries large, roundish in shape, dark red all the way through, have zippy, sweet flavor. Firm texture. Grand freezer. Bears some fruit continuously from a short time after planted until the snow flies and heavy crops both spring and fall. Vigorous grower. As Superfection has all the required marketing qualities, it is a favorite Everbearer.

Prices: 25 plants for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$19.75; 1000 for \$35.00.

Superfection

A Delicious Fruit Easily Grown

Everbearing STRAWBERRIES

The Everbearing Strawberry does for Strawberries what the Hybrid Tea Rose does for Roses—extends the season from May until November. We offer two outstanding Everbearers—Red Rich and Superfection, both of which will bear the first season.

New RED RICH Everbearing

U. S. Plant Patent No. 993

The Everbearer you have read so much about. We quote from the Country Gentleman: "A new Everbearer called Red Rich promises to be the very best everbearing variety of our time."

Honey-sweet. Rich red color, all the way through. Firm texture. Largest, reddest, and sweetest Everbearer you ever saw.

Perfect for Freezing. Being solid and firm.

Red Rich will bear fruit in spring, late summer and fall. As it is a heavy producer, fewer plants are required.

Prepaid parcel post prices: 12 plants for \$2.95; 25 for \$5.00; 50 for \$8.50; 100 for \$15.00; 250 for \$32.50; 500 for \$62.50; 1000 for \$120.00.

PARCEL POST SHIPMENTS OF STRAWBERRIES

Strawberry plants, with exception of special collection and Red Rich, are sold f.o.b. shipping point, but can often be shipped to best advantage by Parcel Post. It is impossible to estimate in advance exactly what postage will be, but if you would like Parcel Post shipments, advise. You may remit whatever postage the package shows.

Ideal Home Garden Collections

- 100 **Blakemore.** Early, bright red favorite.
- 100 **Pocahontas.** New. Midseason.
- 50 **Ambrosia.** Giant late frequently missing spring frosts.

250 Plants Furnishing Fruit from Earliest to Latest **\$8.15**

Postpaid to points east of the Mississippi

For large family or the home freezer, double the above collection—total 500 plants for \$12.60, postpaid to points east of the Mississippi.

500-Plant Home Collection

Ideal for families desiring berries for preserving and freezing.

- 150 **Blakemore.** Early, bright red.
- 100 **Albritten.** New early.
- 150 **Robinson.** Good midseason.
- 100 **Ambrosia.** New late.

500 Plants **\$11.65** Postpaid to points east of the Mississippi.

Note.—Strawberries are put up 25 plants to the bunch and are not offered in smaller quantities than 25, or in broken bunches.

STRAWBERRIES

**Tennessee
Beauty**

No fruit is found in more gardens than the Strawberry, which can be grown successfully in almost all soils and climates, requiring little attention other than keeping the beds free of weeds. It, however, responds to fertilization and culture. A lot of delicious fruit can be obtained from a small section of your garden.

Strawberries may be had in assorted varieties, furnishing berries throughout the season, but we recommend planting only a sufficient number to cover the season and furnish proper pollination. From our list such a selection can be made including the two most popular Everbearers to furnish fruit during the fall when berries are at a premium.

Be sure to plant enough for freezing and enjoy Strawberries throughout the year.

NEW STRAWBERRY COLLECTION

50 **Albritten**. New early
50 **Dixieland**. Another new early.
50 **Pocahontas**. Fine midseason.
Total 150 Plants for \$6.65
Postpaid to points east of the Mississippi.
100 each **Albritten, Dixieland and Pocahontas**
Total 300 Plants for \$10.75
Postpaid to points east of the Mississippi.

Pocahontas

SPRING AND SUMMER PLANTING RECOMMENDED.

While a large percent of the planting is done in spring months, which is generally recommended, successful planting may be done during June, July and August with dormant plants, now available through our modern cold storage facilities. Summer plantings will produce a full crop the following spring. Fall planting is sometimes practiced in localities not subject to winter freezing and thawing, but generally is not recommended in area we serve.

Planting Distances—See table page 15.

Standard Spring - Fruiting Strawberries

EARLY

- **Albritten**. Promising new early berry introduced by North Carolina Experiment Station in cooperation with U. S. Department of Agriculture. Berries large, have attractive color; firm, good shipper. Vigorous, productive. Popular as a home and commercial berry in Virginia, Maryland and the Carolinas.
- **Blakemore**. The berry of the South, where more Blakemore are grown than all other Strawberries combined, producing year after year crops of early, bright red, firm, sweet berries. Good shipper and popular for home use. Blakemore can be grown in all parts of the United States where Strawberries are cultivated, but due to its hardiness, freedom from disease and dependability, producing crops under most unfavorable conditions, it is the universal berry throughout the South. Satisfactory freezer.
- **Dixieland**. The new early berry for the South. Introduced by North Carolina Agricultural Experiment Station. Berries very uniform in shape and ripen with Blakemore; larger and firmer. Good shipper, excellent for freezing. One of the best home berries and profitable commercially. See illustration front cover.

LATE

- **Ambrosia**. Considered the largest and best of all late Strawberries. Recent introduction, but extensively planted. Late bloomer, sure cropper. In every respect a wonderful berry. Frequently produces full crop when early varieties are killed by late spring frosts.

➤ **Pocahontas**. New mid-season berry recently released by U. S. Department of Agriculture. Fruited in our nursery for the first time during spring and summer 1955. We were so impressed with the performance of the plants and quality of the fruit that we do not feel space will permit as much comment as Pocahontas merits. Normally a spring-fruiting Strawberry, does not fruit the first season planted. This new berry planted in mid-April started fruiting in May and continued without let-up until mid-July. Berries large, firm and sweet throughout long ripening season. Total yield more than doubled that of any other variety in our nursery. In a class to itself because of its extended ripening season. Vigorous grower and plant producer, even while ripening fruit.

➤ **Robinson**. Good midseason. Late bloomer, especially recommended for sections where early varieties are subject to injury by late spring frosts. Tremendous size, sweet, firm, glossy red, uniform. Ideal for filling in the gap between early and late.

➤ **Tennessee Beauty**. (U. S. Plant Pat. No. 629). Originated at Tennessee Agricultural Experiment Station. Good size, smooth, uniform berries, even glossy red. Rates high for general home use, including freezing; also firm shipper, and holds its color well. Plants vigorous, healthy and heavy yielders.

HOME NUT TREE PLANTING

Consisting of:
2 Blight-resistant Chinese Chestnuts
2 English Walnuts

Total 4 Nut Trees
2-3 ft. Size

\$9.95

Postpaid to points east of the Mississippi.

American Filbert

FILBERT (Hazelnut)

Hardy valuable nut which grows into a small, shrub-like tree, seldom attaining a height of more than 15 feet. We offer both the native American and the much improved Barcelona European Filbert. Both are adapted to a wide range of soil and climate and are being cultivated in most parts of the United States. Useful for shrub borders or screens, as well as producing nuts.

Native American. Family favorite Filbert. Attractive bush, yielding abundant crops of tasty, round nuts; young bearer.

	1 to 5 Each	3 to 10 Each	10 to 30 Each
2-3 ft.	\$1.25	\$1.00	\$0.75
3-4 ft. bearing size	1.75	1.50	1.25
4-6 ft. bearing size	2.75	2.50	2.25

Barcelona. Improved, large English Filbert. Most extensively planted commercial variety. Plant with Native American for cross pollination.

	1-5 Each	5-10 Each
18-24 in.	\$1.50	\$1.25

AMERICAN SHELLBARK HICKORY

Delicious, thin shell Hickory Nuts may still be grown, harvested and enjoyed. 2-3 ft., \$3.00 each; 3-4 ft., \$3.75 each; 4-6 ft., \$4.50 each.

NUT CULTURE PROMISING AS A COMMERCIAL CROP

We quote from the *Home Horticulturist*, published in Chicago, Illinois, emphasizing Nut Culture for profit and as a hobby: "It would seem that nut culture offers much promise as a commercial crop. In addition it is interesting and an enjoyable hobby, furnishing food for the home."

At one time wild, native nuts in an assortment of varieties could be harvested in almost all timbered sections of the East, but this is no longer possible. American Sweet Chestnut was wiped out by blight. Shellbark Hickory has been cut for wood, and even Black Walnut—one of the most valuable timber trees—has been practically eliminated as a native tree. So if we are to enjoy nuts, it is necessary to plant and cultivate them, as other crops.

Our trees are nursery grown, transplanted, and root pruned, minimizing risk in transplanting.

As nut trees have a deep root system, and are heavy feeders, they respond to fertile, well drained soil. For best results, plant two or more trees of a class, providing for cross pollination.

CHINESE CHESTNUT **Blight Resistant**

LARGE, SWEET CHESTNUTS ARE AGAIN A REALITY

More than thirty years ago blight destroyed our Native American Chestnuts. The U. S. Department of Agriculture—after many tests—introduced a type of Chinese Chestnut not only blight-resistant, but an early bearer of large, good quality nuts. Trees start bearing when very young, often in 2 to 5 years, and succeed anywhere American Sweet Chestnuts formerly grew; in fact, they are successful in most parts of the United States. A well drained, sunny location is recommended. Plant Chinese Chestnuts for attractive home ground shade trees and also reap a harvest of delicious, sweet nuts.

ENGLISH WALNUT (Carpathian Walnut)

A familiar nut in stores, but it is not generally known that English or Carpathian Walnuts can be grown to perfection here in Virginia and other Eastern states. It could mean to the Middle Atlantic area what Pecans mean to the Deep South. The 100-year-old tree illustrated on this page has produced annual crops as far back as local citizens can remember. For the past several years crops of several hundred pounds have sold at 30c to 40c per pound. English Walnut trees require no more care than Apples, begin bearing as early.

	1-5 Each	5-10 Each	10-30 Each		1-5 Each	5-10 Each	10-30 Each

English Walnut

A 100-year-old English Walnut Tree growing in Augusta County, Virginia. This remarkable tree has a spread of 60 feet. It produces annual crops of thin-shell nuts of excellent quality, selling for just as much as the Pacific Coast nuts.

WAYNESBORO NURSERIES

Mayhan

Stuart

Papershell

PECANS

Profitable as a commercial crop in the warmer parts of Virginia and in states farther south. Desirable for shade and home-grown nuts in areas bordering commercial belt. After once established, the Pecan is a strong-growing, shapely, long-lived tree—ornamental as well as fruitful. From numerous improved varieties we attempt to offer only selected ones satisfactory in the territory we serve. Write for commercial growers' prices on more than 30.

MAYHAN PECAN—New Giant Early Bearer

An experiment station reports a yield doubling other varieties. Nuts of enormous size, thin shell, good quality, selling for higher prices than old Pecans. Trees frequently start bearing two or three years after being transplanted.

	1-5 Each	5-10 Each	10-30 Each
3-4 ft.	\$3.95	\$3.75	\$3.50
4-5 ft.	4.95	4.75	4.50

Home Pecan Planting

To Provide: **Delicious Nuts—Pollination—Stately Shade Trees**

At a cost no more than non-productive Shade Trees.

Consisting of one each Giant Mayhan, Stuart and Papershell—

**Total Three Pecan Trees,
3 to 4 ft. Size**

\$10.65

Postpaid to points east of the Mississippi.

➤ **Stuart.** Possibly the best known and most extensively planted Pecan because of its adaptability to a wide range of culture. Can be grown in the Deep South and being early, it matures farther north than later varieties. Good size nuts with thin shell. The Stuart planted with well-known Papershell or new Mayhan will provide for cross pollination.

	1-5 Each	5-10 Each	10-30 Each
3-4 ft.	\$3.50	\$3.25	\$3.00
4-5 ft.	4.25	4.00	3.75

➤ **Papershell.** Nuts not quite as large as Mayhan and Stuart, but good quality, thin shell. Well shaped, fast growing tree. Excellent pollinator for other varieties. Large production of Papershell makes possible following low prices:

PAPERSHELL PECAN PRICES

	1-5 Each	5-10 Each	10-30 Each
2-3 ft.	\$2.25	\$2.10	\$2.00
3-4 ft.	2.75	2.60	2.45
4-5 ft.	3.50	3.25	3.00

Chinquapin

➤ CHINQUAPIN (Castanea Pumila)

A junior member of the Chestnut family. Small shrub-like tree maturing at the size of a Peach tree. Begins bearing early, often first year after transplanted. Delicious nuts 1/2 inch in diameter are borne singly in Chestnut-like burrs, ripening in September. Surely there is a place in the garden, lawn or orchard for some of these interesting, ornamental, fruitful little trees. Children will enjoy harvesting the shining brown nuts.

	1-5 Each	5-10 Each	10-30 Each
18-24 in., bearing size	\$2.35	\$2.25	\$2.00
2-3 ft., bearing size	2.85	2.75	2.50

➤ BLACK WALNUT

Every planter is familiar with the native Black Walnut, but not all are aware of its possibilities. As a timber proposition, its culture is extremely profitable, especially when planted on pasture land, as Black Walnut does not interfere with grass and when established, the trees afford shade for livestock. Produces nuts which are now in great demand and grows into valuable timber. When planted for nut bearing, the recommended spacing is 40x40 feet; for timber 8x8 feet. **Prices on root-pruned, transplanted trees as follows:**

	1-5 Each	5-10 Each	10-30 Each
2-3 ft.	\$1.20	\$1.10	\$1.00
3-4 ft.	1.75	1.60	1.50
4-6 ft.	2.25	2.10	2.00
6-8 ft.	3.00	2.80	2.60
8-10 ft.	3.75	3.50	3.25
1-yr., 12-15 in., \$2.50 per 10; \$18.00 per 100.			

Asparagus and Rhubarb

For Your Early Spring Garden

Mary Washington **ASPARAGUS**

PEDIGREED—RUST-RESISTANT

**One Planting Will Serve Your Table
for Many Years Without Replanting**

Easily grown, producing an enormous amount of wholesome food at small cost and effort. Readily in demand and a profitable commercial crop, its chief requirement being a deep, fertile soil.

We grow and offer the **Pedigreed Mary Washington**, which is generally recognized as best and most satisfactory Asparagus. Giant, crisp, tender stalks. 100 plants will furnish you with fresh Asparagus for six weeks in early spring, but do not overlook providing frozen Asparagus for enjoyment months later.

Home freezers, frozen food lockers, and grocery store frozen food markets have greatly increased the consumption of Asparagus, resulting in more interest in both home and commercial plantings. No home garden should be without it.

Cultural Instructions. For home garden culture, plant 6 inches deep, 12 inches apart in rows 3½ feet wide. Do not cover the crowns more than 2 inches at first, gradually filling in as they grow. If soil is not very fertile, we recommend a heavy application of manure or commercial fertilizer, repeating each year. In commercial plantings, the rows are sometimes 4 feet wide, so as to provide ample space for tractor cultivation.

Vegetable and Bedding Plants

RHUBARB

—Or Pie Plant

Delicious for pies or sauce when served fresh, canned, or frozen. Prefers deep, fertile soil, but requires very little attention. Not even necessary to move or replant each year. Plant 3 to 4 ft. apart in rows or beds.

CANADA RED

Reddest of all the Red Rhubarbs. Tender, juicy stalks, rich red all the way through. Skin so tender that peeling is unnecessary. May be served fresh throughout spring and summer. Seedless; propagated by divisions only. **Strong divisions, 90c each; 3 for \$2.60; 6 for \$4.95.**

VICTORIA

Enormous, long, tender stalks. Early. 2-yr. roots, 90c per 3; \$1.50 per 6; \$2.75 per doz.; \$4.85 per 25; \$8.50 per 50; \$15.00 per 100.

Ordering and Planting Information

PLANTING SEASON. The normal planting season is when plant material is dormant, extending from early November to May. However, there are exceptions, especially in balled and burlapped and container-grown plants, which may be transplanted throughout the year. The planting season of dormant stock is extended by modern nursery cold storages. November and December are big planting months; so are March, April and May. Specified shipping dates will be followed as closely as practical, but as we must be somewhat governed by weather conditions and maturity of stock, it is not always possible to make shipment on exact dates requested.

CERTIFICATE OF INSPECTION. Issued by Virginia State Entomologist, certifying that our nursery has been inspected and plant material found to be apparently free of disease and pests, furnished with each shipment.

TRANSPORTATION. We are located on trunk lines of C&O and N&W railroads and are served by motor freight lines. Fruit trees, berry plants and other items dug without ball are generally shipped express; balled and burlapped (BB) evergreens and large shade trees by freight or delivered by our truck, for which we can in most cases arrange at a nominal delivery cost. Small shipments can be frequently sent by parcel post at a saving, permitting customer to refund to us amount of postage on package when not offered postpaid.

PRICES: Prices quoted are f.o.b. our shipping point unless otherwise specified. We make no charge for packing and delivering to our local freight, motor freight, express, or post office.

TERMS. Remittance with order unless C.O.D. service is required, in which case 25 % deposit will be accepted. You can save C.O.D. expense by remitting in full with order.

REMITTANCES may be made by postal money order, express money order, or your personal check.

LIBERAL REPLACEMENT TERMS. While losses from transplanting our vigorous, carefully handled plant material are at a minimum, there are always some losses to be expected, regardless of how careful both nursery-

man and planter may be. We agree to share with our customers on a fifty-fifty basis any losses from transplanting our plant material by refurnishing at half catalog list price plant material reported dead within twelve months after date of delivery, provided the original purchase was paid for as per sale terms and plant material has been given reasonable attention.

VARIETIES AND QUANTITIES. If you do not find listed the variety, quantity, or size desired, write or call for further information.

MAKING UP ORDERS. Do not fail to give sizes, quantities, and varieties desired. Also state shipping point if different from post office, when and how you prefer shipment.

WARRANTY. We are very careful in keeping our varieties true to name and seldom have a report of plant material proving otherwise. In such instances we limit our adjustments to either refurnishing without charge or refunding full purchase price.

START YOUR PLANTS RIGHT with Pep-To-Grow. When planting berries, use 10 lbs. on each 100 plants; on fruit trees, nut trees, shrubs, small evergreens and shade trees, 1 lb. each.

HORTICULTURAL PEAT MOSS. Loosens soil, retains moisture, protects against drying out and transplanting losses. One gallon per shrub, small evergreen or tree normally assures satisfactory results.

See Page 24E for more information and prices on Pep-To-Grow and Peat Moss.

SPRAYING INFORMATION

See Page 24-C for Spray Materials

Pest or Disease:

Recommended Control:

BAG WORM	—Chiefly on Evergreens	DDT 50 or Malathion
BROWN ROT	—On Grapes, Plum and Cherry	Kolo Fruit Tree Dust or Spray
ELM BEETLE AND JAPANESE BEETLE		DDT 50 or Malathion
LEAF SPOT	—On Apple, Cherry, Pear, Plum	Kolo Fruit Tree Dust or Spray
ORIENTAL PEACH MOTH		DDT 50, Malathion, or Kolo Fruit Tree Dust or Spray
PEACH TREE AND PIN BORERS		DDT 50 or Malathion
PHLOX RUST		Ornamental Dust or Spray
RED SPIDER	—Chiefly on Evergreens	Garden Oil Spray, Sunoco Oil, or Malathion
ROSE LEAF SPOT, APHIS, CHEWING AND SUCKING INSECTS		Pomo-Green or Ornamental Dust or Spray
SCALES		Garden Oil Spray or Sunoco Oil
WEED KILLERS		See page 24D

INSECTICIDES, FUNGICIDES, ETC.

For the convenience of our customers we have carefully selected some of the most practical sprays and dusts, including the newer and more effective materials, which we carry in stock for immediate shipment.

NOTE: Materials on this page are offered postpaid in postal zones 1, 2, 3, and 4, with exception of SUNOCO OIL, which is offered f.o.b. our shipping point. On postpaid items outside the fourth zone, add 5 cents per pound.

DDT 50 SPRAY

Contains 50% DDT. For use in control of Bag Worms, Elm and Japanese Beetles, Oriental Peach Moth, Peach and Pin Borers, Thrips, Leafhoppers, Codling Moths, Rose Chafer. Effective against mosquitoes and house flies in yards and picnic areas. Standard mixture—1 to 1½ tablespoons in 1 gallon water. For Peach Tree Borers—1 lb. to 12 gallons water. 1-lb., \$1.40; 3-lbs., \$2.85, postpaid.

MALATHION 50 LIQUID

Contains 50% Malathion. Controls Bag Worm, Elm Beetle, Japanese Beetle, Oriental Peach Moth, Peach Tree and Pin Borers, Red Spider, Aphis, Thrips, Juniper Scale, Mealybugs on Evergreens, Roses, Ornamentals, Shrubs, Trees. Also controls flies around garbage areas. Standard mixture—4 teaspoons per gallon water. 4-oz. bottle, \$1.15; 1-pint bottle, \$3.45, postpaid.

KOLO FRUIT TREE DUST OR SPRAY

Contains Kolo-Sulphur, DDT, and Malathion. Formulated for complete insect and disease control during the growing season. Stays in suspension with only light agitation and gives a uniform deposit on the foliage. Can be used either as a Dust or Spray to control insects, diseases and mites—such as Brown Rot, Leaf Spot, Oriental Peach Moth, Codling Moth, Curculio, Tent Caterpillar, Rose Chafer, Leafhopper, Apple Maggot, Bitter Rot, Peach, Apple and Pear Scab, Powdery Mildew. 3 lbs. makes 25 gals. of dilute spray. 1-lb., \$1.40; 3-lbs., \$2.55, postpaid.

ORNAMENTAL DUST OR SPRAY

For Evergreens, Shrubs, Roses, Shade Trees. Contains Lindane, Methoxychlor, Aramite and Ferbam. Can be used as a Dust or Spray for control of Rose Leaf Spot, Aphis, Chewing and Sucking Insects, including Japanese Beetle, Caterpillars, also Powdery Mildew, Rust. 8-oz. Push-Pull Dust Gun, \$1.60; 1-lb. Canister, \$1.80; 3-lb. Canister, \$3.80, postpaid.

POMO-GREEN DUST OR SPRAY

For Roses and Ornamental Plants. Contains Aramite, Lindane, Methoxychlor, Ferbam and Sulphur. Is leaf-green in color to blend with foliage. Can be used either as a Dust or Spray to control Aphis, Thrips, Japanese Beetles, Rose Chafer, Leafroller, Leafhopper, Caterpillars, Leaf Spot, Powdery Mildew. 8-oz. Push-Pull Dust Gun, \$1.60; 1-lb. Canister, \$1.75; 3-lb. Canister, \$3.60, postpaid.

GARDEN OIL SPRAY

Contains high quality oil for spraying of Evergreens, Fruit Trees, Shade Trees, Chrysanthemums and many Shrubs. Controls Red Spider, Scales, Mealybugs, White Fly and other insects. 1-pint bottle, \$1.65, postpaid.

SUNOCO OIL

Controls Red Spider, which is the most common enemy of Evergreens. Also kills San Jose Scale, Rose Scale, Oyster Shell Scale, Pine Leaf Scale and Euonymus Scale. 1 gallon makes 25 gallons dormant spray or 100 gallons summer spray. 1-gal. can, \$2.25, f.o.b. our shipping point.

CHAPERONE DOG REPELLENT

Save your shrubs and trees from dog destruction by spraying with Chaperone, a dog repellent. Not offensive to human beings, but dogs don't like it and stay away. Works like magic. Harmless, does not show. Economical to use—each application lasts up to three weeks, rain or shine. Also effective with cats and other animals. 8-oz. bottle, \$1.65, postpaid.

The KEN-SPRAYALL

IS THE MOST PERFECT AND SATISFACTORY SPRAYER FOR ALL KINDS OF HAND SPRAYING. THE ONLY SPRAYER WITH ALL THESE ADVANTAGES ENTIRELY SELF CONTAINED.

SPRAYERS

HUDSON LEADER SPRAYER No. 293-B

Three and one-half gallon, electrically seam-welded, galvanized tank. Convenient funnel top. Easy stroke pump developing 75-lb. pressure. Oil and chemical resistant, 24-inch, high pressure spray hose. All brass spray control, quick-acting valve. Easily, comfortably operated. 22-inch brass extension. Each sprayer tested and fully guaranteed. \$9.85, express collect.

1. Finger-tip control of all adjustments.
2. Double action—continuous spraying—light weight.
3. Finger-tip control of nozzle varies spray from fogmist to full stream.
4. Finger-tip control of swivel permits spray to be pointed in any desired direction, making it easy to reach hard-to-get-at places.
5. Finger-tip control of self-contained telescopic extension, 12 in. long.
6. No loose parts to become lost or mislaid, either of nozzle or extension.
7. Constructed of brass and 100% Neoprene; resistant to all spray solutions; easy to operate, simple to clean, with proper care will last a lifetime.
8. No tank to clean—hose is placed directly in ordinary bucket containing the spray solution which is screened as it passes into sprayer.
9. Sprays up to 35 feet.
10. Practical for the home garden and desirable for spraying the dairy barn, poultry houses, etc. \$8.95 each.

Note: If parcel post shipment is desired, add 45c for postage.

Plant Foods, Soil Conditioners and Weed Killers

Contributing to Vigorous Plants and Trees, Beautiful Velvety Lawns

This tested and proven soil conditioner has taken the guesswork out of culture of acid-loving plants. First used in the culture of Rhododendrons and Azaleas, but found to be equally as effective in growing the following:

Blue Hydrangeas	Hollies	Hemlocks
Camellias	Andromedas	Dogwoods
Blueberries	Kalmias	Magnolias
Franklinia	Pines	Oaks
		Sweet Gum

Rho-Za-Grow has simplified the culture of such plants—making their growth possible in soils originally unsuited.

Rho-Za-Grow is a scientifically balanced soil conditioner. Use it on all plants requiring acid soil, not only acidifying the soil but loosening soil and retaining moisture.

Rho-Za-Grow contains exactly the proper balance of acids, in the form of moisture-retaining humus, available over a long period of time, making frequent applications unnecessary. When using Rho-Za-Grow, no other treatment of soil is necessary other than proper watering and Peat Moss mulch.

10-lb. bag	\$1.35	50-lb. bag	\$4.50
25-lb. bag	2.50	100-lb. bag	8.00

ADCO

For Converting Field and Garden Wastes Into Organic Plant Food

IT'S EASY—anybody can do it.
IT'S CHEAP—Every pound of ADCO makes forty pounds of splendid fertilizer.

IT'S GOOD—Produces a true plant food, totally different from ordinary compost, largely composed of available humus, which enriches the soil as no purely chemical fertilizer can.

Mix ADCO with leaves, weeds, vines, clippings, cuttings, straw, cornstalks, etc., and turn them into rich plant food.

20-lb. bag—enough to make 800 lbs. plant food	\$ 3.75
100-lb. bag—enough to make two tons plant food	14.00

WEED and CRAB GRASS KILLERS

WEEDONE

The Weed-Killing Miracle

The outstanding weed killer for home users. Kills woody plants, as well as dandelions, plantains and other lawn weeds without killing grass. Also kills poison ivy and poison oak, honeysuckle and many other woody plants. 8-ozs., \$1.20; 1-qt., \$3.10, postpaid. Write for prices on larger quantities.

IMPROVED WEEDONE CRAB GRASS KILLER

Kills crab grass and chickweed without killing clover, bluegrass and other desirable grasses. Can be used on seedling or mature crab grass. Harmless to soil. Readily soluble in water. Easily cleaned from sprayer with plain water. 6 1/2-oz. can, treats 1300 sq. ft. crab grass in seedling stage, \$1.30, postpaid. 26-oz. can, treats 5200 sq. ft. crab grass in seedling stage, \$3.95, postpaid.

RA-PID-GRO

The Sensational Liquid PLANT FOOD

A clean, odorless powder instantly soluble in water. Nursery stock that is dipped in a solution of Ra-Pid-Gro starts quicker, grows faster.

Enjoy your lawn, garden and flowers at their best—feed Ra-Pid-Gro. Easy to apply and economical to use as in larger quantities the cost is only about 1/2c per pound for a rich, liquid plant food, while a general fertilizer costs much more. Every pound of Ra-Pid-Gro makes 22 gallons of liquid plant food. There is no filler in Ra-Pid-Gro.

Use Ra-Pid-Gro on everything you grow. To estimate your season's requirements, figure at the rate of 1 lb. Ra-Pid-Gro for each 100 lbs. other fertilizer you have been using. Normally 10 lbs. Ra-Pid-Gro will take care of the lawn, shrubs and trees on a lot 50 ft. by 150 ft. Directions for use given on every package. 1 lb., \$1.50; 2 lbs., \$2.65; 5 lbs., \$4.90; 10 lbs., \$9.35, postpaid.

TRANSPLANTONE

Reg. U. S. Pat. Off.

A water soluble powder containing Vitamin B-1 and other parts of Vitamin B, plus certain hormones vital to plant and root growth.

Applied when transplanting vegetable plants, bedding plants, Roses, shrubs, evergreens and trees, it greatly reduces transplanting losses and starts plants off with more vigor and vitality.

One 3-oz. box—which makes 30 gallons solution for soaking roots or 2000 to 3000 gallons for watering, \$1.05, postpaid; 1-lb. can, \$4.20, postpaid.

NEW WONDER-BREL

Contains *GIBREL

*Gibrel Trade Mark of Merck & Co., Inc.

Amazing New Plant Growth Stimulant Gibberellic Acid Makes Plants Grow Up to 3 Times Bigger and Faster

Some of the wonderful things Wonder-Brel does:

- Makes plants grow to giant size.
- Increases size and yield of flowers and fruits.
- Makes flowers bloom earlier.
- Plants grow faster, mature earlier.
- Practically eliminates transplanting shock.
- Seeds germinate faster.
- Make other dramatic results on plants of many kinds, including—

African Violets, Roses, Geraniums, annuals, shrubs. Promotes grass growth, resulting in more luxuriant lawns.

WONDER-BREL in Aerosol Spray Can, 8-oz. houseplant size, \$1.59, postpaid to points east of the Mississippi.

ROSS ROOT FEEDER

The scientific tool that feeds as it waters right to the roots, in one simple process. Puts fertilizer and water directly to the roots, producing healthier and more vigorous growth. Simple, easy to use, lasts for years. For watering, just attach to hose; for fertilizing, place cartridge in the chamber, attach to hose, and turn on the water, push into the ground to desired depth. Furnished with one dozen regular fertilizing cartridges. \$6.35, postpaid.

CARTRIDGES. Regular or Acid. Acid recommended for acid-loving plants like Azaleas, Blue Hydrangeas, etc. Box of 12, \$1.25, postpaid.

LAWN GRASS SEED MIXTURES

The quality of your lawn will depend much on the seed you use. No one mixture is suited to all soils, climates and altitudes. Neither will any one grass furnish a velvety green lawn throughout the year. With these facts in mind, we have carefully selected and blended mixtures so as to afford a beautiful lawn as much of the year as possible—taking into consideration the nature of the soil, the climate and shade. So we not only offer grass seed but properly blended mixtures which have been carefully tested. For an open lawn on loam or clay soil the Waynesboro Evergreen Lawn Mixture is suited, while the Shady Lawn Mixture is recommended for similar soil having fifty per cent or more shade. For sandy soils and in other soils where a lower priced seed will meet the requirements, our Virginia Home and Park Mixture will be found most satisfactory.

WAYNESBORO EVERGREEN LAWN MIXTURE. A scientifically prepared grass seed mixture which produces a beautiful sod in a few weeks and is green throughout the year. Extensively used for small home grounds, as well as public parks, college campuses, large estates, and wherever a beautiful, permanent sod is desired. The extensive demand for this mixture enables us to offer it for even less than frequently charged for unsuited grasses. 1 to 5 lbs., \$1.15 per lb.; 5 to 10 lbs., \$1.05 per lb.; 10 to 50 lbs., 93c per lb. Write for prices on lots of 50 lbs. or more.

SHADY LAWN MIXTURE. Adapted to partial shade where standard mixtures are not permanent. 1 to 5 lbs., \$1.25 per lb.; 5 to 10 lbs., \$1.15 per lb.; 10 to 50 lbs., \$1.05 per lb. Write for prices on lots of 50 lbs. or more.

VIRGINIA HOME AND PARK MIXTURE. A high quality blend of quick growing and permanent grasses selected so as to furnish a velvety green lawn within a few weeks after seeding and enough of the slower growing varieties to make a permanent sod. Offered at a close competitive price. 1 to 5 lbs., 75c per lb.; 5 to 10 lbs., 70c per lb.; 10 to 50 lbs., 60c per lb. Write for prices on lots of 50 lbs. or more.

NOTE: The general rule for seeding lawns is to use 1 lb. grass seed to each 150 to 200 square feet. We have found our high grade grass seed mixtures afford excellent stands seeded 1 lb. to each 250 square feet, making our mixtures economical to use, as well as resulting in a better lawn.

HORTICULTURAL PEAT MOSS

Useful in building lawns by furnishing humus, lightening the soil and retaining moisture. Also valuable as a summer and winter mulch about plants and trees.

Standard Commercial Bales. 17x21x36 in., burlapped, wired, \$5.50 each.

Home Garden Bales. 18x14x30 in., \$3.95 each; 3-bu. bag, \$3.00 each; 1-bu. bag, \$1.25 each.

ENJOY A BEAUTIFUL LAWN

By properly grading, carefully preparing soil containing organic material—such as peat moss—and feeding with **Pep-To-Grow** or some other special lawn fertilizer. Most important of all, use a tested grass seed mixture made up of lawn grasses selected so as to produce a velvety green carpet in a short time, increasing in beauty as the slower, more permanent grasses become established.

FOUR EASY STEPS TO A BEAUTIFUL, LASTING LAWN

1. Thoroughly pulverize soil to a depth of 6 in. or deeper, applying Peat Moss and top soil if necessary.

2. Apply 4 lbs. **Pep - To - Grow** and 1 bu. pulverized Horticultural Peat Moss per 100 sq. feet, raking into soil.

3. Sow Waynesboro Evergreen Lawn, Shady Lawn Grass or Virginia Home and Park Seed Mixture at the rate of 1 lb. to each 250 sq. ft.

4. Roll the seeded lawn and soak, using a fine spray to prevent baking. Mulch with straw, or burlap is helpful.

space. Rake in lightly.

GROW WITH PEP-to-GROW

FOR LAWNS, TREES, BOXWOODS, SHRUBS, ROSES, PERENNIALS, BEDDING PLANTS, VEGETABLES

A specially prepared, balanced lawn and garden plant food which gives pep and vigor without danger of burning if properly watered when applied. An application is recommended for each spring and fall.

Apply **Pep-To-Grow** on your lawn, Rose and perennial beds at the rate of 4 lbs. per 100 square feet; on shade trees, shrubs, Boxwoods and other evergreens at the rate of 1 lb. per plant up to 3 ft. in height, increasing the application on larger plants and trees at the rate of 1 lb. for each additional 2 ft. height. **Pep-To-Grow** excels in safe, gradual feeding and lasting effects. 25-lb. bag, \$1.75; 50-lb. bag, \$3.00; 100-lb. bag, \$5.50. Write for quotations on lots of one ton or more.

GARDEN SUPPLIES

NATIONALLY ADVERTISED SEYMOUR SMITH GARDEN TOOLS

Offered at Following Postpaid Prices

PROFESSIONAL PRUNER

No. 124

Made of the finest drop-forged steel. Keen, honed edge blades. Adjustable ratchet nut lock and bolt support insure blade alignment at all times. Non-pinching, hollowed handles provide comfortable grip. We use this pruner almost exclusively for heavy nur-

series work. Also popular with commercial fruit growers, landscape men, and gardeners who require a long-wearing, smooth-working pruner. Length, over-all, 8 inches. \$3.95, postpaid.

EZY-CUT HEDGE SHEARS

No. 14-8

Well made, efficient, serviceable shears. Accurately ground, 8-inch cutlery steel blades, notched for cutting large branches. Blades have special flame-hardened edges

for maximum wear of cutting edge and tough backing of edge. High lift handles keep operator's hands up out of the hedge. \$3.95, postpaid.

SPECIAL SNAP-CUT PRUNER No. 019

A new Snap-Cut Anvil Pruner for light garden work. Orange painted handles, aluminum anvil and wire spring. 8 inches long. \$2.25, postpaid.

MISCELLANEOUS GARDEN SUPPLIES

WOOD LABELS

11/16 in. x 3 1/2 in. Copper wired. For trees, shrubs, Dahlias and similar plants. \$1.00 per 100; \$6.65 per 1000, postpaid.

POT AND GARDEN WOOD LABELS

Painted white. Offered at following postpaid prices:

	Per 100	Per 1000
4x5/8 in. Pot Labels	\$1.00	\$ 6.65
6x5/8 in. Pot Labels	1.25	8.20
8x5/8 in. Pot Labels	1.50	12.00
10x7/8 in. Garden Labels	2.25	20.00
12x1 1/8 in. Garden Labels	3.50	33.00

GARDEN MAGIC

A Complete Book of Gardening

Made up of 490 pages—18 full color illustrations, hundreds of line drawings—practical, helpful ideas on what should be done and how to do it. Deals with many important garden subjects, including the following:

Acid-loving Plants
Soil Fertility
Lawns and Grading
Trees, Shrubs, Roses
Hedges, Vines, Bulbs
The Rock Garden
The Water Garden
Planting, Transplanting, Pruning
Coniferous Evergreens
The Vegetable Garden
Fruits and Berries

Plant Diseases
Flower Arrangements

Price: \$3.95, postpaid.

**Identify Your Plants
Beautify Your Garden**
with
KLER-VUE GARDEN LABELS
A practical all weather label that stays clean

Tempered flint glass container
Plastic screw cap
Rust-proof 24 inch enameled stake

PLANT RECORD
The tube inserted in cap is used for recording place of purchase, color, date of planting, blooming, etc.

Box of 12, \$2.85, Postpaid.

RAINFOOF PENCIL

For labeling both metal and wood labels.

20c each when sold with above labels. Sold separately, 25c, postpaid.

ACME GRAFTING COMPOUND

Effective, practical grafting compound, more easily applied than grafting wax and can be used more successfully as it completely covers the graft and union. May be applied with an ordinary small paint brush. We have been using this grafting compound for many years in our nurseries, as well as we supply large quantities to commercial fruit growers for use in bridge grafting, protecting tree wounds, and other tree injuries. 1-qt. can, \$1.45, postpaid. 1-gal. can, \$3.85, express collect.

GARDEN SUPPLIES

AVAILABLE AT
**BOXWOOD GARDEN SHOP AND OUR
MAIN NURSERY PACKING HOUSE**

While we welcome your order from this catalog, we maintain a complete stock of garden supplies at our Boxwood Garden Shop, Route 250, near Skyline Drive Entrance; also at our Main Nursery Packing House, Lyndhurst-Sherando Lake Road, Waynesboro. Our facilities for handling this type material are being improved and expanded.

You are invited to drop in at Boxwood Garden Shop or Main Nursery Packing House, pick up your garden supplies and visit our Nurseries. A special invitation is extended to you to enjoy the beauty of Boxwood Gardens during late April and early May, when Tulips, Flowering Trees and Azaleas are in bloom; also in September and October, when Chrysanthemums are at their best.

MOLOGEN

Mole Killer. Kills moles. Easy, quick, safe to use. Odorless chemical powder that means sure, quick death to moles. Non-poisonous to birds and pets. 8-oz. can, 60c; 1 1/2 lbs., \$1.50, postpaid.

ORDERING and PLANTING INFORMATION

PLANTING SEASON. The normal planting season is when plant material is dormant, extending from early November to May. However, there are exceptions, especially in balled and burlapped and container-grown plants, which may be transplanted throughout the year. The planting season of dormant stock is extended by modern nursery cold storages. November and December are big planting months; so are March, April and May. Specified shipping dates will be followed as closely as practical, but as we must be somewhat governed by the weather conditions and maturity of stock, it is not always possible to make shipment on exact dates requested.

CERTIFICATE OF INSPECTION. Issued by Virginia State Entomologist—certifying that our nursery has been inspected and plant material found to be apparently free of disease and pests, furnished with each shipment.

TRANSPORTATION. We are located on trunk lines of CGO and N&W Railroads and are served by motor freight lines. Fruit trees, berry plants and other items dug without ball are generally shipped express; balled and burlapped (BB) evergreens and large shade trees by freight or delivered by our truck, for which we can in most cases arrange at a nominal delivery cost. Small shipments can be frequently sent by parcel post at a saving, permitting customer to refund to us amount of postage on package when not offered postpaid.

PRICES. Prices quoted are f.o.b. our shipping point unless otherwise specified. We make no charge for packing and delivering to our local freight, motor freight, express, or post office.

TERMS: Remittance with order unless C.O.D. Service is required, in which case 25% deposit will be accepted. You can save C.O.D. expense by remitting in full with order.

REMITTANCES may be made by postal money order, express money order, or your personal check.

LIBERAL REPLACEMENT TERMS. While losses from transplanting our vigorous, carefully handled plant material are at a minimum, there are always some losses to be expected, regardless of how careful both nurseryman and planter may be. We agree to share with our customers on a fifty-fifty basis any losses from transplanting our plant material by refurbishing at half catalog list price plant material reported dead within twelve months after date of delivery, provided the original purchase was paid for as per sale terms and plant material has been given reasonable attention.

VARIETIES AND QUANTITIES. If you do not find listed the variety, quantity or size desired, write or call for further information.

MAKING UP ORDERS. Do not fail to give sizes, quantities and varieties desired. Also state shipping point if different from post office, when and how you prefer shipment.

WARRANTY. We are very careful in keeping our varieties true to name and seldom have a report of plant material proving otherwise. In such instances we limit our adjustments to either refurbishing without charge or refunding full purchase price.

START YOUR PLANTS RIGHT—With Pep-To-Grow. When planting berries, use 10 lbs. on each 100 plants; on fruit trees, nut trees, shrubs, small evergreens and shade trees, 1 lb. each.

HORTICULTURAL PEAT MOSS. Loosens soil, retains moisture, protects against drying out and transplanting losses. One gallon per shrub, small evergreen or tree normally assures satisfactory results.

See page 24E for more information and prices on Pep-To-Grow and Peat Moss.

HOME PLANTING COLLECTIONS

Postpaid to points east of the Mississippi
(Indicate with X Collections Ordered)

3-TREE HOME APPLE ORCHARD 7-JC

☐ Collection 7-JC

Consisting of varieties to furnish fruit in early summer, mid-summer and late fall:

- 1 **Yellow Transparent.** Well-known golden yellow. June.
- 1 **Summer Rambo.** Favorite summer Apple. Red striped. August.
- 1 **Virginia Winesap.** Late fall. Red. Good winter keeper.

Total 3 trees, 2-year, 4-6 ft. size—\$6.65, postpaid.

NEW, RARE FLOWERING SHRUB COLLECTION 7-MC

☐ Collection 7-MC

Flowering shrubs to bloom over a long period in spring and summer:

- 1 **Forsythia, Lynwood Gold.** New golden yellow.
- 1 **Mockorange, Double Fragrant.** New double, pure white.
- 1 **Nikko Blue Hydrangea.** Large, blue flowers on new wood.
- 1 **French Pussy Willow.** Improved Pussy Willow, large, silvery catkins.

All 4 New Flowering Shrubs, 2-yr., 18-24 in. size—\$4.85, postpaid.

FAVORITE FLOWERING SHRUB COLLECTION 7-NC

☐ Collection 7-NC

Collection of garden favorites.

- 1 **Old-fashioned Snowball.** Large, white flowers in May.
- 1 **Old-fashioned purple Lilac.** Old-time favorite.
- 1 **Hydrangea Peegee.** Enormous white flowers in August.

Total 3 Flowering Shrubs—\$3.45, postpaid.

SPRING FLOWERING TREE COLLECTION 7-OC

☐ Collection 7-OC

May be used as specimens or as a group.

- 1 **Eleyi Red Flowering Crab.**
- 1 **Pink Flowering Dogwood.**
- 1 **Double Red Flowering Peach.**

Total 3 Spring Flowering Trees, 2-3 ft. size, not balled—\$7.45, postpaid.

PEACH ORCHARD 7-KC

☐ Offer 7-KC

Consisting of three delicious varieties. Excellent for serving fresh, freezing and canning. Listed below in ripening order:

- 2 **Redhaven.** Bright red. Yellow freestone. July 15th.
- 2 **Hale-Haven.** Large, yellow freestone. August 1st.
- 2 **Elberta.** Popular yellow freestone. August 15th.

Total 6 Peach trees, 3-4 ft. size—\$7.65, postpaid.

5-TREE HOME ORCHARD 7-LC

☐ Offer 7-LC

An assortment of varieties selected to furnish fresh fruit for several months of the year.

1 **Summer Rambo Apple.** Favorite red striped summer Apple. August.

- 1 **Elberta Peach.** Well-known, popular yellow freestone. August 15th.
- 1 **Bartlett Pear.** Rich golden yellow, red cheek. August.
- 1 **Methley Plum.** New, large, reddish purple with red flesh. Early.
- 1 **Large Montmorency Cherry.** Favorite red pie Cherry.

All 5 trees in our 3-4 ft. size—\$9.25, postpaid.

CUSHION CHRYSANTHEMUM COLLECTION 7-CC

☐ Collection 7-CC

To furnish bloom over a long season.

2 each **Bronze, Pink and Yellow Cushion Chrysanthemums**—total 6 plants—\$2.85, postpaid.

AZALEA AND TULIP TIME

In the gardens of Branch Nursery, Boxwood Garden Shop, Route 250, five miles east of Waynesboro, near junction of Skyline Drive and Blue Ridge Parkway. Garden visitors welcome at all times. No admission charge.

Flowering SHRUBS

This important class of plant material has many uses in modern planting—in shrub borders, as specimens and the low-growing types in foundation plantings. Improvements have extended the blooming season, as well as afforded a more beautiful combination of colors. Shrubs are inexpensive, normally are easily transplanted and grown. Make your selection from the following choice varieties.

NOTE: Size immediately after name of shrub indicates matured height, and not height at planting time.

BARBERRY thunbergi (*Berberis thunbergii*). 4 to 5 ft. Too well known to require a detailed description. Used as specimens, in borders and hedges. 2-yr., 12-15 in., 50c each; 3 to 30, 45c each; 30 or more, 40c each. 3-yr., 15-18 in., 65c each; 3 to 30, 60c each; 30 or more, 55c each. 4-yr., heavy, 18-24 in., 90c each; 3 to 30, 80c each; 30 or more, 70c each.

BARBERRY, Red-Leaved (*Berberis atropurpurea*). 4 to 5 ft. Resembles *Berberis thunbergii*, differing by having blood-red foliage when planted in full sunlight. Yellow blossoms followed by red berries, which hang on well into winter. Useful in screens, hedges and group plantings. 12-15 in., 75c each; 3 to 30, 70c each; 30 or more, 65c each. 15-18 in., 85c each; 3 to 30, 80c each; 30 or more, 75c each. 18-24 in., \$1.25 each; 3 to 30, \$1.15 each; 30 or more, \$1.00 each.

Red Barberry

ALMOND, Flowering (*Prunus glandulosa sinensis*). 5 ft. Dwarf shrub. Double pink flowers appear in spring in masses, covering plant. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

ALTHEA—Rose of Sharon (*Hibiscus syriacus*). 10 ft. An old-time flowering shrub not only found in old gardens, but worthy of a place in the modern planting. Hollyhock-like flowers from midsummer until late fall, when few shrubs are in bloom. Lavender, Pink, Purple, Red and White. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.25 each; 3 or more, \$2.10 each.

BEAUTYBUSH (*Kolkwitzia amabilis*). 6 to 8 ft. A shrub with great possibilities. May be used in combination with *Abelia* and other shrubs of similar height and habits to furnish bloom throughout the summer. Long, arching branches covered in early spring with masses of pink, tubular blossoms. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

ABELIA grandiflora. One of the most beautiful and useful of all flowering shrubs. Glossy foliage which is evergreen in Virginia, excepting severe winters, making it eligible for classification as a Broadleaf Evergreen as well as a shrub. So we list it under both Shrubs and Broadleaved Evergreens. Smaller sizes transplant reasonably well dug without ball, provided pruned severely at time transplanted. (See page 32 for balled and burlapped specimens). Grows to a height of 4 to 6 feet making it ideal for foundation planting; also used for hedges and shrub borders. Small, light pink, tubular blossoms appear in July and continue until frost. Hardy as far north as Philadelphia. Offered in following sizes, dug without ball: 15-18 in., \$1.25 each; 3 or more, \$1.15 each. 18-24 in., \$1.50 each; 3 or more \$1.35 each.

[25]

Selected FLOWERING

BUTTERFLY BUSH (Buddleia)

(Summer Lilac)

6 to 7 ft. Under this class we offer the finest varieties which will furnish long spikes of various colors from early summer until frost. After you see them, you will agree that great improvements have been made in Buddleia in the past few years and you are going to be pleased with any ordered from our collection, which we offer in the following choice named varieties:

2-yr., \$1.25 each; 3 or more, \$1.00 each.

Charming. Best of the pinks. Vigorous; free bloomer.

Crimson Glory. Same habits of growth and blooming season as Ile de France, but flowers are deep purplish red.

Ile de France. One of the best and most popular of the named varieties. Profusion of rosy purple flower spikes 6 to 9 in. long. July to frost.

Mt. Everest. New, pure white blooming from early July until frost. Beautiful as a garden shrub, as well as excellent for cut flowers.

DEUTZIA

An old, popular garden shrub now available in an assortment of improved varieties. We offer **Crenata** and **Pride of Rochester** in 2-3 ft., at \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

Crenata. 6 to 8 ft. Double pink. Slightly fragrant flowers.

Pride of Rochester (Deutzia scabra). 6 to 8 ft. Fast-growing, early. Masses of pink-tinged flowers covering the shrub.

Gracilis. 2 to 3 ft. Snowy white flowers in May. Valued because of its dwarf habit, adapting it to foundation plantings, borders and other locations requiring low-growing plant material.

12-15 in., \$1.25 each; 3 or more, \$1.15 each.

Gracilis rosea. Similar to Gracilis, but pink flowers.

12-15 in., \$1.25 each; 3 or more, \$1.15 each.

Lemoine. Semi-dwarf. Large-flowering white.

18-24 in., \$1.00 each; 3 or more, 90c each.

DOGWOOD, Red Stem (Cornus stolonifera). 6 to 8 ft. Spreading shrub with bright, reddish purple branches, which are quite ornamental during winter months. Creamy white flowers, dense clusters, followed by white berries, making it a useful year-round shrub. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

EUONYMUS alatus (Winged Burningbush). 6 to 8 ft. Unusual shrub. Upright, dwarf habit, compact, horizontal, spreading branches with a unique, corky winged growth. Tiny, chocolate colored flowers followed by red berries; beautiful scarlet autumn foliage. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.15 each.

EUONYMUS alatus compacta (Compact Winged Burningbush). Dwarf, compact form of this popular shrub. Excellent autumn-colored foliage. Useful where a low-growing, compact plant is required. 15-18 in., \$1.75 each; 3 or more, \$1.60 each. 18-24 in., \$2.25 each; 3 or more, \$2.10 each.

FLOWERING QUINCE (Cydonia japonica). 6 to 8 ft. Old shrub found in almost every garden and sometimes referred to as "Japonica." Red flowers in early spring, lasting several weeks. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

FORSYTHIA (Goldenbell)

Average height 6 to 8 ft. One of the first flowering shrubs to bloom—covered with yellow, tubular flowers before the foliage appears. Attractive, useful shrub throughout rest of the year. Often used as hedges, screens, shrub borders and especially useful on steep banks, preventing erosion, as it can be grown in almost any kind of soil and climate.

PRICES: Green-Stemmed, Showy Border and Weeping: 2-3 ft., \$1.00 each; 3 to 30, 90c each; 30 or more, 80c each. 3-4 ft., \$1.50 each; 3 to 30, \$1.35 each; 30 or more, \$1.20 each. 4-5 ft., \$2.00 each; 3 to 30, \$1.85 each; 30 or more, \$1.70 each.

Green-Stemmed Forsythia (Forsythia viridissima). Most vigorous; green bark; dark green foliage. Late.

Showy Border Forsythia (Forsythia spectabilis). Upright. New, profuse bloomer. Rich golden yellow.

Weeping Forsythia (Forsythia suspensa). Excellent as a ground cover for steep banks and for hiding unsightly objects. Beautiful growth and blossoms.

Dwarf Forsythia. New dwarf Forsythia resembling Spectabilis but growing only 2 to 3 ft. in height. Suitable for foundation plantings. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

FORSYTHIA, SPRING GLORY. Lovely recent introduction. Dwarf grower. Large, creamy yellow flowers of an entirely different shade, completely cover the branches. The pleasing, unusual color and abundance of bloom make Spring Glory especially outstanding. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

FORSYTHIA, LYNNWOOD GOLD. New golden yellow. Erect branches literally covered with flowers from top to bottom. Matured height 5 to 7 ft. A worthwhile companion to the popular light yellow Spring Glory. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

BLUE HYDRANGEAS (Hydrangea macrophylla)

NEW NIKKO BLUE. (Illustrated opposite page.) Produces masses of large, blue flower heads on new wood, resulting in flowers every year, while the better known varieties bloom only on old wood, sometimes accounting for non-flowering when the wood is cut back or freezes. Soil requirements same as China Blue Boy Hydrangea. 2-yr., \$1.75 each; 3 or more, \$1.60 each.

China Blue Boy. Massive flowers lasting for weeks. Blooms from May until frost. For best results and violet-blue blossoms, plant in a moist, acid soil using peat moss, Rho-Za-Grow or similar organic material. Prefers partial shade and winter protection. Beautiful shapely, low-growing shrub with glossy green foliage. Useful in foundation plantings. If pink flowers are desired, sweeten the soil with lime. 2-yr., \$1.25 each; 3 or more, \$1.15 each.

HYDRANGEAS

Hills of Snow (Hydrangea arborescens grandiflora). 3 to 4 ft. Large, flat, white, snowball-like flowers, continuing throughout summer. Can be grown in full sunlight or partial shade. 2-yr., \$1.50 each; 3 or more, \$1.35 each.

Peegee (Hydrangea paniculata grandiflora). 6 to 8 ft. Enormous white, conical-shaped heads appear in August and remain intact throughout the season but turn a light pink during fall. For best results prune back each winter. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

HYPERICUM aureum (Golden St. Johns-wort). Low-growing; masses of yellow flowers in July and August. 2-yr., \$1.25 each; 3 or more, \$1.15 each.

KERRIA JAPONICA. 4 to 6 ft. Bright green stems, dark green foliage, yellow blossoms all summer. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

CRAPE MYRTLE (Lagerstroemia indica)

The South's most beautiful shrub. Blooms from July until frost. While it has been known to stand temperatures of as much as 15 degrees below zero, it is not considered entirely hardy in the higher altitudes of western part of Virginia. Adapted to southern and eastern Virginia and along the Atlantic seacoast as far north as Philadelphia. Throughout the South the Crape Myrtle ranks at the top as a flowering shrub, growing much larger and being longer lived than in this area. More difficult to transplant than most shrubs. Should be pruned severely when transplanted and given plenty of time to start new growth. Spring planting recommended. Pink, watermelon-red, purple and white. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

LARGE BB. SPECIMENS QUOTED ON REQUEST.

BUSH HONEYSUCKLE (Lonicera)

Hardy, easily grown shrubs which have many uses, thriving in both shade and sunlight, furnishing bloom in spring followed by red berries later in the season. Available in following varieties: 2-3 ft. size, \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

Fragrantissima (Evergreen Bush Honeysuckle). 8 to 12 ft. Fragrant white flowers in early spring followed by scarlet fruits.

Morrowi. 6 to 8 ft. Wide-spreading branches producing a profusion of creamy white flowers followed by bright red berries relished by birds.

Standishi. 5 to 6 ft. White flowers, red fruit.

Tatarica rosea. 6 to 8 ft. Rosy pink flowers in April, followed by red berries. Useful in hedges, shrub borders and backgrounds.

CHINESE BEAUTYBERRY (Callicarpa purpurea). 3 to 4 ft. Graceful, dwarf shrub. White flowers July and August, followed by masses of purple berries. Important berried plant. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

CORALBERRY chenaulti (Symphoricarpos chenaulti). 3 to 4 ft. Useful, dwarf shrub adapted to wide range of soil and climate. Somewhat weeping. Light pink flowers in early summer followed by coral berries which hang on well into winter. Hardy, easily transplanted. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

CRANBERRY BUSH (Viburnum americanum). White flowers followed by orange-red berries. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

WAYNESBORO NURSERIES

SHRUBS for Years of Generous Color

LILAC (Syringa)

An old shrub which has lost none of its popularity; in fact, is more in demand than ever, due to much improvement in varieties.

NAMED HYBRIDS—Selected to furnish an assortment of colors.

Belle de Nancy. Double pink.

Charles X. Single reddish purple.

Jan Van Tol. Single pure white.

Ludwig Spaeth. Single deep purple.

Pres. Grevy. Double bluish lilac.

Pres. Lincoln. Single clear blue.

Rubra de Marley. Single reddish purple.

Prices on above named Lilacs: 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

MISCELLANEOUS LILACS: We offer following in 2-3 ft. size at \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each.

Chinese (*Syringa rothomagensis*). Lilac-purple. Profuse bloomer.

Old-Fashioned Purple (*Syringa vulgaris*).

Old-Fashioned White (*Syringa vulgaris alba*).

DISTINCTIVE MOCKORANGES

(*Philadelphus*)

A wealth of blooms in late spring and summer. **Atlas.** Giant-flowered pure white, single blossoms as large as those of Dogwoods. Good upright habit of growth, attaining height of about 6 ft. Blooms late May and June.

Belle Etoile. 5 ft. Large, single, milky white flowers with light purple blotch in center. Fragrant, vigorous, neat growing shrub.

Double Fragrant. 5 ft. New double, pure white. Free-blooming and sweet scented. Graceful, well branched shrub.

Innocence. (Alabaster-white Mockorange). 5 ft. Large, single alabaster-white flowers borne on long, arching branches. Noted for its pure white blooms.

Virginal. 7 to 9 ft. Orange-blossom-like fragrance. Semi-double. One of its habits is to produce a few flowers throughout summer and fall.

PRICES ON ABOVE MOCKORANGES: 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

Nikko Blue Hydrangea

WAYNESBORO, VIRGINIA

Belle de Nancy

Pres. Grevy

Jan Van Tol

Rubra de Marley

PEARL BUSH (*Exochorda grandiflora*). 8 to 10 ft. Large, fast-growing shrub. Pure white flowers in May. Useful in shrub borders, backgrounds, and as screens. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

POMEGRANATE. 8 ft. Thick, glossy green foliage. Double, Camellia-like red flowers, beginning in June and continuing until autumn. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

PURPLE FRINGE or SMOKE TREE (*Rhus cotinus*). 10 to 12 ft. Conspicuous, spreading, shrub-like tree. Large clusters of round leaves, overhanging in mid-summer by mist-like clouds of tiny lavender-pink, silken fibers hanging on for months. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

REGEL BORDER PRIVET (*Ligustrum regelianum*). A beautiful shrub. Very hardy. Dark, shiny leaves. Graceful, drooping branches. Blue berries which hang on well into winter. Ideal for covering walls, banks, or a low foundation. 18-24 in., \$1.25 each; 3 to 30, \$1.15 each; 30 or more, \$1.00 each. 2-3 ft., \$1.75 each; 3 to 30, \$1.60 each; 30 or more, \$1.50 each.

ROSE-ACACIA (*Robinia hispida*). 5 to 6 ft. Rosy pink flowers in May and June. Suitable for mass plantings on steep banks. 3-yr., \$1.50 each; 3 or more, \$1.35 each.

ROSEMARY WILLOW (*Salix incana*). 8 to 10 ft. Attractive, slow-growing Willow with silvery leaves resembling Russian Olive. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

PUSSY WILLOW - New French

(*Salix discolor*)

Improved Pussy Willow with large, silvery catkins. Popular for indoor late winter and early spring forcing.

18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

New French Pussy Willow

SCOTCH BROOM (*Cytisus scoparius*). An old plant which is not as extensively used in America as in Europe. However, it can be successfully grown here. Dark green stems make it attractive throughout the year. Bright yellow flowers appear in May and June. Matured height 6 ft. 3-yr. clumps, dug without ball, \$2.00 each. 4-yr. clumps, dug without ball, \$2.75 each.

SNOWBALL, Japanese (*Viburnum tomentosum plicatum*). 7 to 8 ft. This semi-dwarf type is more extensively used than old-fashioned Common Snowball Big, white flowers in June. Glossy green foliage in summer, turning purplish red in autumn. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each.

SNOWBALL, Old-Fashioned (*Viburnum opulus sterile*). 8 to 10 ft. Very satisfactory, hardy shrub with beautiful clusters of large, globular white flowers in May. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each.

SNOWBERRY (*Symphoricarpos racemosus*). 4 to 5 ft. Handsome dark green foliage and a profusion of large white berries in the fall. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

STRAWBERRY BUSH (*Euonymus americana*). 6 to 7 ft. Red berries, which appear from bursting capsules after leaves drop, are quite showy. Leaves bright green in summer, changing to colorful hues in autumn. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

SWEET PEPPERBUSH (*Clethra alnifolia*). 4 to 5 ft. Has many uses in the garden. Spicy, fragrant, white flower spikes in August and September. 18-24 in., \$1.00 each; 3 or more, 90c each.

TAMARIX (*Tamarix africana*). 8 to 10 ft. Tall, slender, straggly growing tree with beautiful, feathery foliage. Delicate pink flowers in April. 3-4 ft., \$1.25 each; 3 or more, \$1.15 each. 4-5 ft., \$1.75 each; 3 or more, \$1.60 each.

Spirea, Anthony Waterer

(See page 28)

SPIREAS

A desirable class of shrubs, available in many varieties. The following are especially useful for both small home plantings and larger landscape developments. Easily grown, inexpensive, adapted to a wide range of soils, hardy in almost all climates.

Anthony Waterer (*Spiraea Anthony Waterer*). 2 ft. Suitable for planting under windows and along shrub borders. Low-growing. Flat, rose-pink flower clusters in great numbers in June, scattered blossoms throughout summer. Illustrated page 27. 12-15 in., \$1.00 each; 3 or more, 90c each. 15-18 in., \$1.25 each; 3 or more, \$1.15 each.

Billardi rosea (*Spiraea billardi rosea*). 4 to 6 ft. Everblooming Spirea. Pink spikes which are at their best in July but continuing until frost. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

Blue (*Caryopteris incana*). Compact, low-growing shrub, covered with masses of powdery blue flowers from August to frost. Tops are perennial, like Butterfly Bush. 2-yr. plants, \$1.00 each; 3 or more, 90c each.

Korean (*Spiraea trichocarpa*). 5 to 6 ft. One of the newer Spireas. Resembles Van Houtte, blooming two or three weeks later, extending the season. Pure white. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

Reeves (*Spiraea reevesiana*). 5 to 6 ft. White flowers borne in clusters along the branches in May, following Van Houtte. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

Thunbergi (*Spiraea thunbergi*). 4 to 5 ft. Attractive green foliage which turns to beautiful color of orange and red in autumn. Dainty white flowers in early spring. 18-24 in., 75c each; 3 or more, 70c each. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each.

Van Houtte (*Spiraea vanhouttei*). 6 to 8 ft. At home almost everywhere planted, under the most favorable and unfavorable conditions. Medium grower. Often used in foundation plantings, shrub borders, as specimens, and serving other purposes. Spreading, attractive shrub with graceful weeping branches. Good foliage and in early spring is covered with masses of pure white flowers. 2-3 ft., 75c each; 3 to 30, 70c each; 30 or more, 65c each. 3-4 ft., \$1.00 each; 3 to 30, 90c each; 30 or more, 80c each.

VIBURNUM carlesi. 4 ft. Produces delicate spice-scented, fragrant, light pink flowers in May and June. 15-18 in., BB., \$2.25 each. 18-24 in., BB., \$3.00 each.

VIBURNUM lantana (Wayfaring Tree). Single white flowers in May followed by red fruit, which changes to black. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

VITEX macrophylla (Chaste Tree). 4 to 5 ft. Large, showy, lavender flower spikes from July until frost. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

WEIGELA

Old garden shrub continuing in demand; used in gardens of all sizes and designs.

Abel Carriere. 6 to 7 ft. Trumpet-shaped, rose-carmine flowers with yellow throat. Free-bloomer in spring, scattered blossoms throughout summer. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

Eva Rathke. 4 to 5 ft. Free bloomer, beginning in May and blooming intermittently until late fall. Bright red. Dwarf grower, suitable for foundation planting. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

Rosea. 7 to 8 ft. Best known and most extensively planted pink Weigela. Blooms abundantly in May and June. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each.

WEIGELA GROUP

(As Illustrated)

- 1 Weigela, Eva Rathke. Red.
- 1 Weigela rosea. Pink.

**Total 2 Weigela Plants,
18-24 in., \$2.25**

Postpaid to points east of the Mississippi

Weigela,
Eva
Rathke

Weigela Rosea

WHITE FRINGE (*Chionanthus virginica*). 12 to 15 ft. Very showy shrub. Large, leathery, shiny leaves; masses of lace-like, drooping white flowers in May, followed by purple berries. 18-24 in., \$2.50 each; 3 or more, \$2.35 each.

WILLOW, Dwarf Blue-leaf Arctic (*Salix purpurea nana*). Low-growing Willow especially suitable for edgings. Easily grown, extremely hardy. Foliage lovely silvery green. For edging or hedges, plant 8 inches apart. May also be grown as single specimens. 18-24 in., 75c each; 3 to 30, 70c each; 30 or more, 65c each.

WINTERBERRY (*Ilex verticillata*). 6 to 8 ft. Deciduous Holly noted for its bright red, shiny winter berries. Entirely hardy. 18-24 in., \$1.25 each; 3 or more, \$1.15 each.

WINTER JASMINE (*Jasmine nudiflorum*). Low-growing. Weeping branches, profusion of yellow blossoms in early spring. Used for covering banks and walls and other locations where a low grower is required. 2-yr., \$1.50 each; 3 or more, \$1.35 each. 3-yr., \$2.00 each; 3 or more, \$1.85 each.

HEDGES

A hedge is ornamental as well as it affords protection, costs less than metal, wood or stone fence, requires little attention and upkeep, lasts almost indefinitely. We especially recommend Evergreen Chinese Privet for home planting and landscape effect and Rosa Multiflora for field fences.

EVERGREEN LIVING FENCE

EVERGREEN CHINESE PRIVET (*Ligustrum sinensis*)

Also known as Amur River South Privet. Improved, evergreen type. Just as hardy as California Privet and has added advantage of retaining its glossy green foliage throughout the average winter. Rapid, compact grower, making a dense hedge in a short time. May be sheared to almost any desired height from 1 to 8 feet. Suitable for surrounding the entire home grounds or as a line between yards.

Planting. For a dense, compact hedge, plant 6 inches apart in a single row, pruning back within 2 or 3 inches of the ground at time of planting. For a screen, plant 12 inches apart.

Practical Multiflora Rose Fence

(*Rosa multiflora*)

Living Farm Fence of Great Value

Inexpensive, easy to grow, stock-tight. Recommended by U. S. Soil Conservation Service. Thousands now planted. Need no trimming. Easily destroyed by 2-4-D. Practical, ideal for wild life, beautiful. White flowers in spring, followed by bright red berries in fall and winter. Grows 6 to 8 feet tall, 5 to 7 feet wide. Plant 1 foot apart in single row. Protects soil, crops, game.

EVERGREEN HEDGES

Boxwoods, Hemlocks, Hollies and *Ligustrum lucidum* may also be used as hedges. See descriptions and listings on other pages.

Chinese Evergreen Privet

Waynesboro's Choice EVERGREENS

For Year 'Round Beauty
CONIFEROUS OR CONE-BEARING TYPES

A Model Low Cost EVERGREEN FOUNDATION PLANTING

Consisting of 6 Evergreens suitable for the small home.

- 2 American Pyramidal Arborvitae. 24-30 in. To be used at corners.
- 2 Globe Arborvitae. 15 in. For space between entrance and corner.
- 2 Berckmann's Golden Arborvitae. 15-18 in. For each side of entrance.

6 Choice Evergreens for only \$24.50

American Pyramidal Arborvitae

Not only beautiful in winter when the earth is brown and deciduous trees are barren, but graceful and effective during the summer. Our Coniferous Evergreens are offered dug with ball of earth and can be transplanted throughout the year. However, planting during the hotter months—June, July and August—is limited. Cannot be conveniently packed for parcel post shipment. Write for prices on large specimen Evergreens.

ARBORVITAE (Thuja)

At one time the Arborvitae was the most extensively planted Evergreen and some types are still popular; others have been displaced by more generous use of Hemlocks, Yews, and Broadleaved Evergreens.

American (Thuja occidentalis). The mother of this big class. Dark green foliage, pyramidal in form, but more spreading and less compact than American Pyramidal. Useful as a windbreak, screen, or as a specimen. **24-30 in., \$4.00; 30-36 in., \$4.75.**

CEDRUS DEODARA (Silvery Blue Cedar)

The famous Cedar of the Himalayan Mountains. Tall, rapid, graceful grower with wide, spreading, semiweeping branches. Fine, silvery blue foliage. Useful for planting in groups and as lawn specimens. The ideal tree for color contrast when planted with green foliage evergreens. Not entirely hardy north of Washington, D. C., but well adapted to the South, where Spruces and Firs are less successful. **18-24 in., \$4.50; 24-30 in., \$5.50; 30-36 in., \$7.00; 3-4 ft., \$9.00; 4-5 ft., \$12.00.**

American Pyramidal (Thuja occidentalis pyramidalis). Well-known pyramidal Evergreen and an excellent companion of the Globe when used in foundation plantings, being used at the corners and other spaces where pyramidal types are required. More slender and compact than the American, requiring no shearing unless to trim to a desired height; in that case, shearing does not detract from the appearance of the plant. **18-24 in., \$3.75; 24-30 in., \$4.50.**

Berckmann's Golden (Thuja orientalis aurea nana). Well-known plant with golden foliage. Frequently used with Pyramidal and Globe Arborvitae. **15-18 in., \$4.00; 18-24 in., \$4.75.**

Globe (Thuja globosa). Dwarf, compact, globe-shaped grower. Ideal for foundation plantings, for hedges, bordering flower gardens, and numerous other uses. **12 in., \$3.00; 15 in., \$3.75.**

FIRS

A group of Evergreens especially adapted to high altitude, well drained soil, and colder climates. Not recommended for the Deep South. Used as specimens or in evergreen groups.

Balsam (Abies balsamea). Dark green foliage. Makes an excellent live Christmas tree, which can be lighted and used from year to year.

Douglas (Pseudotsuga douglasii). Tall, fast-growing Fir. Light green foliage, silvery underneath.

Balsam and Douglas Fir Prices: 24-30 in., \$4.75; 30-36 in., \$6.25; 3-4 ft., \$8.00; 4-5 ft., \$10.00.

Save Your Shrubs and Trees from Dog Destruction

by spraying with Chaperone, a dog repellent. Not offensive to human beings, but dogs don't like it and stay away. Works like magic. Harmless, does not show. Economical to use—each application lasts up to three weeks, rain or shine.

Also effective with cats and other animals.

8 ounces, \$1.65, postpaid.

Cedrus Deodara

Globe Arborvitae

WAYNESBORO, VIRGINIA

Plant

Canadian Hemlock

HEMLOCK, Canadian

(*Tsuga canadensis*)

A most satisfactory evergreen. Native of America, now appreciated as never before. Hardy, adapted to wide range of soil. Strong grower, beautifully shaped, graceful; good foliage. Easily transplanted and may be kept sheared to almost any desired shape and size. Effective in foundation plantings, to be used at the corners and in other spaces where a taller growing evergreen is required. Makes excellent hedge and useful as a background, or screen about the garden. 15-18 in., \$3.25; 18-24 in., \$3.75; 24-30 in., \$4.50; 30-36 in., \$6.00; 3-4 ft., \$8.00; 4-5 ft., \$11.00.

A Model, Medium Price Foundation Planting for a Small Home
2 Hicks' Yew. For each side of entrance.
4 Pfitzer Juniper. Under windows.
2 Canadian Hemlock. To be used at corners.
All 8 Evergreens in the 18-24 in. general landscape size for \$34.50.

Pfitzer Juniper

JUNIPER (*Juniperus*)

Useful family of Evergreens. May be had in numerous shapes, colors, and textures of foliage, as well as in sizes to meet almost any requirement.

The Junipers, as a rule, prefer a rather dry, sunny location. An effective, complete landscape planting may be had by arranging according to height, spread, and color of foliage.

Andorra (*Juniperus communis depressa plumosa*). Compact, prostrate grower with beautiful, grayish green foliage in summer turning to attractive bronze color during winter. Hardy, strong grower. Especially suitable for covering banks, as a border, at the side of steps or end of walkway near the gate. 18-24 in., \$4.00; 24-30 in., \$4.75.

Irish (*Juniperus communis hibernica*). Tall, slender Evergreen with silvery green foliage. Often used at corners and at posts in foundation plantings where a columnar type is required. Also used in formal gardens where it can be sheared to almost any desired height. Hardy, vigorous grower; easily transplanted. Prefers full sunlight. 18-24 in., \$3.25; 24-30 in., \$3.75.

Pfitzer's (*Juniperus chinensis pfitzeriana*). Possibly the best known and most extensively planted of all the Junipers, as it ranks near the top among evergreens. A low grower, almost prostrate. Light green foliage. Hardy and adapted to almost all soils, other than a very wet location which no Juniper likes. Especially useful in foundation plantings, under windows, in low evergreen borders, etc. Withstands partial shade. 18-24 in., \$4.00; 24-30 in., \$4.75; 30-36 in., \$6.00.

Pfitzer's Compact (*Juniperus chinensis pfitzeriana compacta*). More dwarf and compact than standard Pfitzer Juniper. 15-18 in., \$4.00; 18-24 in., \$4.75.

Silver Pfitzer's (*Juniperus glauca Hetzi*). Silvery foliage. Somewhat more upright grower than green type Pfitzer. 18-24 in., \$4.00; 24-30 in., \$4.75; 30-36 in., \$6.00.

PINES (*Pinus*)

No evergreen is adapted to a wider distribution than the Pine. There are many species, having varied uses. We offer those especially suited to the area we serve—the White Pine being used for screens, windbreaks, evergreen groups, hedges, and specimens; the Mugho, most dwarf of all Pines, seldom growing more than 4 feet in height, with equal spread, is used in foundation plantings, in beds, at entrances, and in other positions where a low-growing evergreen is required. Austrian, a slow, dwarf grower, is especially well suited for borders and screens. Scotch Pine is also suitable for screens and as specimens. Japanese Black Pine is especially well suited to seacoast planting.

Austrian (*Pinus nigra*). Rather slow, dwarf grower. Compact, dark green foliage, long needles. 18-24 in., \$3.50; 24-30 in., \$4.00; 30-36 in., \$5.00; 3-4 ft., \$6.00.

Japanese Black Pine (*Pinus thunbergi*). Short, stiff needles. Especially adapted to exposed conditions at the seashore. 18-24 in., \$3.00; 24-30 in., \$3.50; 30-36 in., \$4.50.

Mugho (*Pinus montana mughus*). Dense, compact growers, especially effective in the spring when the new growth starts. 15-18 in., \$5.00; 18-24 in., \$6.50.

Scotch (*Pinus sylvestris*). One of the fastest growers. Short, silvery green needles. 18-24 in., \$3.00; 24-30 in., \$3.50; 30-36 in., \$4.50; 3-4 ft., \$5.50; 4-5 ft., \$7.00; 5-6 ft., \$9.00.

White (*Pinus strobus*). A beautiful cone-bearing evergreen. Long, soft bluish green needles; large brown ornamental cones. Vigorous grower, long-lived. One of the largest Pines. 18-24 in., \$3.00; 24-30 in., \$3.50; 30-36 in., \$4.50; 3-4 ft., \$5.50; 4-5 ft., \$7.00; 5-6 ft., \$9.00.

WRITE FOR QUOTATIONS ON LARGER, SPECIMEN EVERGREENS

White Pine

WAYNESBORO NURSERIES

SPRUCE (*Picea*)

Especially desirable as specimens, but may be used as live, outdoor Christmas trees, screens, and as background for smaller type plants. Some used temporarily in foundation plantings but they are not generally recommended for permanent plantings of this type as they soon outgrow the space unless kept pruned severely.

Black Hills (*Picea glauca densata*). Similar to Norway Spruce, but more compact and better suited for foundation plantings. 15-18 in., \$2.75; 18-24 in., \$3.50; 24-30 in., \$4.25; 30-36 in., \$5.00.

Canadian Blue (*Picea canadensis glauca*). Similar to Colorado Blue Spruce; more compact, smaller needles, faster grower. Also known as White Spruce. 15-18 in., \$3.00; 18-24 in., \$3.75; 24-30 in., \$4.50; 30-36 in., \$5.25; 3-4 ft., \$6.50; 4-5 ft., \$8.00.

Colorado Blue (*Picea pungens glauca*). Various shades of blue, but not as deep as Koster Blue Spruce. 18-24 in., \$4.50.

Norway (*Picea excelsa*). Best known of all the Spruces. Easily transplanted; fast, thrifty growers. Long-lived and adapted to many uses. Retains its dark green foliage throughout the year. 15-18 in., \$2.25; 18-24 in., \$3.00; 24-30 in., \$3.75; 30-36 in., \$4.50; 3-4 ft., \$5.50; 4-5 ft., \$7.00.

Norway Spruce

YEW (*Taxus*)

The tendency in Evergreen plantings is towards better, dwarf, slow-growing, permanent plants rather than fast-growing less permanent ones which frequently become outgrown and ineffective within a few years. The Yew is now by far the most important family of Coniferous Evergreens.

Great interest in Yews is easily accounted for—their rich dark green color, which is maintained at all seasons, in partial shade or full sunlight; variation of form, ease of training and pruning—also their adaptability to various soils and uses. Another prized feature of Yews is their scarlet berries, which frequently are borne in great profusion. They respond to shearing and can be kept at almost any desired shape and height.

Yews may be had with following habits of growth: Pyramidal, Columnar, and Spreading. These types have a place in modern landscape plantings.

Hatfield (*Taxus media hatfieldi*). Broad, columnar shape, flared at top. More dwarf than Hicks'. 15-18 in., \$4.75; 18-24 in., \$6.50; 24-30 in., \$9.00.

Hicks' (*Taxus hicksii*). An upright, columnar grower. Compact dark green foliage which retains its lustrous green color throughout the year. Entirely hardy and adapted to wide range of soils, but like all Yews, it responds to a deep fertile soil. Suitable for planting at entrances and corners in foundation plantings. Also may be used as specimens in formal gardens and other positions requiring a columnar type plant. 15-18 in., \$4.25; 18-24 in., \$5.75; 24-30 in., \$8.00; 30-36 in., \$9.50.

Japanese Pyramidal (*Taxus cuspidata capitata*). The normal growing habit of this Yew is pyramidal—broad at the base and tapering towards the top. 15-18 in., \$4.75; 18-24 in., \$6.50; 24-30 in., \$9.00.

Japanese Spreading (*Taxus cuspidata*). Wide spreading habit, the width exceeding height. Dark green foliage and red berries. Adapted to both full sunlight and partial shade, making it the most useful of all spreading type Coniferous Evergreens. Frequently used in foundation plantings with its companion, Upright Hicks'. Priced by spread. 15-18 in., \$4.75; 18-24 in., \$6.50; 24-30 in., \$9.00.

NOTE: Write for quotations on large specimens in Yews.

MODEL YEW FOUNDATION PLANTING For a Small Home

Graceful, Permanent, Disease-Resistant

One of the best Coniferous Evergreens, costing more than faster growing types, but adapted to both full sunlight and partial shade and growing into permanent beauty.

2 Hicks' Yews. For each side of entrance.

4 Japanese Spreading Yews. Under windows.

2 Japanese Pyramidal Yews. To be used at corners.

All 8 Yews in the 15-18 in. Home Owners' Size for \$35.00. This group may be had in the 18-24 in. General Landscape Size for \$49.00.

Japanese Spreading Yew

Hicks' Yew

Japanese Pyramidal Yew

WINDBREAKS OR SCREENS

NORWAY SPRUCE are excellent for this purpose, being fast growers, inexpensive, dense, and dark green throughout the year. Normally planted 8 feet apart in double triangle-form row, illustrated above. Offered in lots of 30 or more at following prices:

	Each
18-24 in.	\$2.25
24-30 in.	2.75
30-36 in.	3.25

Azaleas for Springtime Color

BROAD-LEAVED EVERGREENS

Many offer a double and triple attraction by flowering and fruiting, the berries remaining on well into winter.

Dwarf types—such as Azaleas, Boxwood, *Euonymus patens*, Hollies, Ligustrums, Abelia, and Rhododendrons—are frequently used in foundation plantings, borders, hedges, and as specimens, while larger growing ones are usually planted as a background for lower growers.

Broad-leaved Evergreens are transplanted dug with ball of earth with exceptions noted on small Boxwoods indicated by *.

AZALEAS

The Pride of the Spring Garden

(See page 25 for Springtime Azalea Scene at our Boxwood Garden Shop.)

Starting to blossom in early March in the Deep South, continuing the season until June in the southern part of the New England States. Varieties offered have been selected not only for color and abundance of bloom, but for hardiness and general adaptability to outdoor culture in the area we serve.

In response to increased demand for Broad-leaved Evergreens, production has been stepped up in better Azaleas and New Hybrid Rhododendrons in our branch nursery, **Azalea Gardens**, Route 151, between Amherst and Afton, Virginia. Azaleas and Rhododendrons have been used generously in landscaping the grounds surrounding **Boxwood Garden Shop**, where blooming size plants may be picked up at any season and carried home in your car.

Culture: Until it became generally known that Azaleas require an acid soil, an abundance of humus and a uniform moisture supply, they were considered difficult to grow, but with proper culture, it is now possible to have beautiful Azaleas in almost any soil. **Rho-Za-Grow** supplies not only acidity, but necessary plant food. Uniform moisture and humus may be retained with a mulch of **Peat Moss** or even decomposed sawdust.

DWARF AND SEMI-DWARF EVERGREEN AZALEAS

Amoena (Kurume). Rosy purple flowers in dense masses. Hardy and early flowering. One of the well known Kurume Azaleas grown over a wide area.

Corsage (Gable). Large, single orchid blooms. Originated by the famous Azalea hybridizer, Mr. Gable of Pennsylvania. Very hardy.

Hexe (Kurume). Midseason; large, deep red flowers. Low grower.

Hiawatha (Kurume). Hose-in-hose. Crimson-carmine.

Hinodegiri (Kurume). Bright carmine-red flowers produced so profusely as to completely cover the plant when in full bloom. Dense, compact bush broader than high with rounded green leaves. Most extensively planted garden Azalea.

Morning Glow (Kurume). Attractive deep pink.

S. C. Hybrids. Large-flowered pink.

Snow (Kurume). Large, snow-white flowers. Compact grower, profuse bloomer. Thick, glossy green foliage. Blooms with **Hinodegiri**. Valuable, hardy garden Azalea.

Sunrise (Kurume). Brilliant red with copper suffusion. A good early.

Sweet Brier (Kurume). Beautiful rose-pink. Hardy, compact grower, abundant bloomer.

White Indica (Ledifolia alba). Abundance of large, white flowers showing occasional scarlet splashes. Hardy, strong grower. Popular in the Magnolia and Middleton Gardens of Charleston, South Carolina.

MACRANTHA AZALEA

(Kurume)

Large, single deep pink. More easily grown than earlier flowering Azaleas. Retains its glossy, evergreen foliage throughout winter without protection. Excellent for borders and in foundation plantings where low-growing plants are required. Blooms month later than **Hinodegiri**, extending the season.

PRICES ON DWARF AND SEMI-DWARF EVERGREEN AZALEAS

	1 to 5 Each	5 to 10 Each	10 or more Each

Euonymus Patens (See page 33)

EVERGREEN BARBERRY

Julianae (Berberis julianae). Most popular of the upright evergreen Barberries. Beautiful, large, dark, glossy green leaves which turn attractive bronze color during winter. Yellow flowers in spring. Purple berries. Very hardy. 15-18 in., \$3.00; 18-24 in., \$4.00.

Verruculosa (Berberis verruculosa). Best of the low-growing dwarf Barberries. Thick, glossy evergreen foliage, silvery underneath. Hardy. Blue berries. 15-18 in., \$3.50; 18-24 in., \$4.50.

ABELIA GRANDIFLORA

Also listed and illustrated under Shrubs, page 25, as small sizes may be transplanted, dug without ball. During severe winters it loses much of its foliage in northern part of Virginia and farther north, but is reasonably hardy and even if affected by extreme cold, it comes right back, more beautiful than ever, blooming the first season. This beautiful Broad-leaved Evergreen is planted in almost every southern garden and frequently found as far north as New York. Offered in balled and burlapped plants as follows: 2-3 ft., \$3.50; 3-4 ft., \$4.50.

Beautiful and Colorful Throughout the Year

BOXWOOD (*Buxus*)

The first group of Broad-leaved Evergreens to be extensively used as landscape material in America. The old Boxwood gardens of Virginia and other states of the South are recognized as being among the most interesting gardens in America and are visited annually by thousands of tourists.

Boxwoods are long-lived, slow to medium growers, beautiful throughout the year. They have many uses in both old and modern gardens, are especially noted for the bordering of driveways, walks, perennial beds, Azalea groups, and other Broad-leaved Evergreens and flowering plants. The taller species are even used as screens. Boxwoods always carry a certain amount of dignity, yet can be effectively used in the small, modern garden. There are many varieties; we offer the most popular, practical ones.

BOXWOOD, Standard (*Buxus sempervirens*). Often referred to as American or Standard Box because of its general use. No doubt more of this useful type is grown than all other varieties combined. Medium grower, maturing at a height of 15 ft. or more, with equal spread. Slender, pointed, dark green leaves, plant pyramidal in form when young, broader as it becomes older. Sometimes confused with its more dwarf companion, *Buxus suffruticosa*, which is a close rival for first place. *Buxus sempervirens* has many uses and has always been in great demand. Especially useful as specimens, in hedges and borders. Requires fertile soil and good drainage.

21-24 in., BB. Specimens ..	7.50	7.25		

Note.—Boxwood sizes indicated by (*) dug with puddled roots; other sizes Balled and Burlapped (BB.)

LARGE SPECIMEN BOXWOODS

Offered in addition to sizes listed in this catalog. The value of these plants is determined by their size, shape and compactness. It is preferable that the planter see the plants, make selections and be furnished with prices.

EUONYMUS patens. The most satisfactory Euonymus. Low, dwarf grower, hardy. White flowers in spring, followed by red berries which remain on until well into winter. Excellent foundation plant. Illustrated on page 32.
15-18 in., \$2.25; 18-24 in., \$3.00; 24-30 in., \$3.75.

HOLLY (*Ilex*)

Well-known group of Broad-leaved Evergreens. Useful in garden as well as for Christmas decoration material. Glossy, dark green foliage and ornamental berries. The use of **Rho-Za-Grow** is recommended and the planting of groups of three or more for successful fruiting.

East Palatka (*Ilex opaca*, East Palatka). Hybrid American Holly. Smooth-edged, evergreen leaves. Deep red berries, borne in heavy clusters, hang on during winter. 2-3 ft., \$6.50; 3-4 ft., \$8.00.

Boxleaf (*Ilex convexa*). Dwarf, compact grower. Most effective dark, glossy green, convex foliage; blue berries. One of the best dwarf evergreens for foundation plantings. 12-15 in., \$3.50; 15-18 in., \$4.50; 18-24 in., \$6.00.

Helleri (*Ilex helleri*). Dwarf. Small leaves, blue-black berries. Used for edging, in foundation plantings and low hedges. 10-12 in., \$4.75; 12-15 in., \$6.25.

Oriental (*Ilex crenata*). Differs from American by having small, thick, dark green foliage, blue-black berries. Used as specimens also in hedges and screens. 24-30 in., \$6.00; 30-36 in., \$7.50. Ask for prices on larger sizes.

Round-leaf Oriental (*Ilex crenata rotundifolia*). Larger, rounder leaves than *Ilex crenata*, making a broader more compact plant. Resembles Boxwood and used in similar manner. Also useful in hedges, screens and as specimens. Hardy, low, slow grower. 12-15 in., \$3.00; 15-18 in., \$4.00; 18-24 in., \$5.00.

Small-leaf Oriental (*Ilex crenata microphylla*). Low-growing, spreading, compact form of the Oriental Holly. Blue-black berries. Neat grower, requiring little shearing. 15-18 in., \$4.00; 18-24 in., \$5.00; 24-30 in., \$6.50.

Standard Boxwood Hedge. Azaleas in Background

BOXWOOD, Dwarf English (*Buxus suffruticosa*). This is the round-leaved, slow-growing, compact Boxwood frequently found on old estates here in Virginia. Specimens several hundred years old having a spread of 8 to 10 ft. are still the pride of many of the famous gardens but the enormous prices offered for these old specimens have moved many of them to new homes. Young plants increase in value each year and serve to make the garden more beautiful.

Note.—Above Dwarf English Boxwood sizes indicated by (*) dug with puddled roots; other sizes Balled and Burlapped (BB.).

CAMELIAS. One of the South's well known Broad-leaved Evergreens. Noted for its gorgeous blossoms in various colors. May be grown along Atlantic Seaboard as far north as Washington, D. C., and extensively grown in Norfolk area of Virginia. Use Rho-Za-Grow.

Sasanqua. Fall blooming. Pink, Red, White. 18-24 in., \$4.50; 2-3 ft., \$6.00.

Japonica. Spring blooming. Pink, Red, White. 18-24 in., \$6.00.

ERICA gracilis. Beautiful, hardy, low-growing evergreen scarcely more than 12 inches in height, and 18-inch spread. Dark evergreen foliage. Entire plant covered with profusion of rose-colored, fragrant, tubular flowers from January until April. Even without flowering, this charming little plant would be worthy of a place in your garden. Ideal for the rock garden or border. 2-yr., \$1.50 each in lots of 1 to 10; 10 or more, \$1.35 each.

KALMIA latifolia (Mountain Laurel). Well known native evergreen. Dark glossy, evergreen foliage. Masses of pink Azalea-like flowers in May. Adapted to acid soil conditions, like the Rhododendrons and Azaleas use Rho-Za-Grow. 24-30 in., \$4.75.

AMERICAN HOLLY

(*Ilex opaca*)

Adapted to wide range of soil and climate. In many places will grow into specimen trees 25 ft. or more in height but often kept sheared in the garden to small specimens. White flowers in early spring. Red fruit on the berry-bearing plants serves as decoration throughout winter. 18-24 in., \$6.00; 2-3 ft., \$7.50; 3-4 ft., \$10.00.

American Holly

Round Leaf Holly

BROAD-LEAVED EVERGREENS LAURELS

(*Prunus* or *Laurocerasus*)

English (*Prunus officinalis*). Large, dark green leaves resembling *Magnolia grandiflora*. Useful in foundation plantings and evergreen borders. Not generally hardy north of Virginia. 18-24 in., \$3.75; 2-3 ft., \$4.75; 3-4 ft., \$6.50.

Schipkaensis (*Prunus schipkaensis*). Low, compact evergreen suitable for foundation planting. Hardy. Very dark green foliage color retained throughout winter. 18-24 in., \$4.50; 24-30 in., \$6.00.

Zabel (*Prunus Zabeli*). Differs from *Schipkaensis* Laurel with its prostrate growth and more slender leaf. 18-24 in., \$4.50; 24-30 in., \$6.00.

MAGNOLIA grandiflora. Famous southern evergreen flowering tree. Can be satisfactorily grown in most parts of Virginia, but not hardy much farther north. Tree grows to be quite large. Tulip-like, very fragrant, large, pure white flowers, followed by pods of bright red berries. 18-24 in., \$4.00; 2-3 ft., \$5.50; 3-4 ft., \$7.50; 4-5 ft., \$10.00. Write for quotations on larger specimens.

NANDINA domestica. Used throughout Virginia and near the coast farther north. Small, light green foliage in summer turning to brilliant shades of red in late fall, continuing through winter. White blossoms in summer, bright red berries in fall and winter. Useful and beautiful. 15-18 in., \$3.00; 18-24 in., \$4.00.

LIGUSTRUM LUCIDUM

One of the South's most popular Broad-leaved Evergreens. Ideal for foundation plantings, borders, and groups. Adapted to both full sunlight and partial shade. White flowers in summer, blue berries throughout winter. Not considered entirely hardy north of Philadelphia. 15-18 in., \$2.75; 18-24 in., \$3.50; 24-30 in., \$4.25.

Ligustrum Lucidum

OSMANTHUS fortunei. Holly-like evergreen leaves; creamy white, fragrant flowers in spring, followed by bluish berries. Thrives in sunlight or partial shade in Virginia and states farther south. Useful in foundation plantings or as specimens. 15-18 in., \$3.00; 18-24 in., \$4.00; 2-3 ft., \$5.00.

OSMANTHUS illicifolium. Closely resembles English Holly, but more hardy. Blue-black berries. 15-18 in., \$4.50; 18-24 in., \$6.00.

PHOTINIA serrulata. Upright grower. Leaf tips red in spring, turning green later in season. Large, lustrous, leathery leaves with serrated edges. White flowers, red berries. 18-24 in., \$3.75; 2-3 ft., \$4.75.

PYRACANTHA (Firethorn)

Evergreen foliage, white flowers in May, bright red or orange berries. Deserves a place in every garden—in borders, hedges or as specimens. Prune when planting. Make your selection from following choice varieties:

Gibbsi. Profusion of late bright red berries which hang on until early spring.

Lalandi. Tall, irregular grower. Large, orange-colored berries, hanging on well into winter. One of the most hardy *Pyracanthas*.

Rogersi. Compact, low-growing type. Bright red berries early to late fall.

Pyracantha prices, in one-gallon containers: 15-18 in. plants, \$2.75; 18-24 in. \$3.50.

VIBURNUM, LEATHER-LEAF

(*Viburnum rhytidophyllum*)

One of the most hardy of all Broad-leaved Evergreens. Thick, leather-like, evergreen foliage; creamy white flowers in May and June followed by clusters of bright red berries in July and August, adding to the merits of this valuable plant. Grows to a height of 6 to 8 ft. May be used in foundation plantings or evergreen shrub borders. Thrives in full sunlight, but gives best results in partial shade. Merits more extensive use. 2-3 ft., \$4.75; 3-4 ft., \$6.50.

Pyracantha Rogersi

Magnolia Grandiflora

RHODODENDRONS

Would be worthy of a place in the garden even without their gorgeous bloom. However, few plants are more beautiful when blossoming under favorable conditions.

Culture: Apply 2 to 3 lbs. Rho-Za-Grow and 3 to 6 lbs. Peat Moss per plant when planting, repeating application annually. No additional plant food or soil conditioner required.

NATIVE RHODODENDRONS

Catawbiense. Low, compact. Round-tipped, glossy, evergreen foliage. Gorgeous purplish red flowers in May. Frequently used in front of *Maximum* in mass plantings. 18-24 in., \$4.50; 2-3 ft., \$6.00.

Maximum. Tall, strong grower. Large leaves, light pink flowers in June and July. Useful as a background in group plantings with low-growing types. 18-24 in., \$4.00; 2-3 ft., \$5.50; 3-4 ft., \$7.00.

HYBRID RHODODENDRONS

Beautiful Broad-leaved Evergreens found in the better landscape plantings of the East. We offer following selection of better Hybrids:

Caractus. Purplish crimson. Late.

Catawbiense Boursault. Lilac, tinged rose. Midseason.

Director Hjelm. Dark carmine-rose, bronze blotch. Midseason.

Dr. H. C. Dresselhuys. Bright red. Late.

F. D. Godman. Dark magenta-red. Midseason.

Gomer Waterer. White. Late.

Nova Zembla. Red. Late.

Parson's Gloriosum. Rosy lilac. Late.

Roseum Elegans. Rose tinted lilac. Midseason.

HYBRID RHODODENDRON PRICES: 15-18 in., \$6.50; 18-24 in., \$8.00.

Pyracantha Lalandi

Waynesboro

Flowering and Ornamental Trees

Especially useful as specimens and as border backgrounds for flowering shrubs. Used in plantings on the roadside, school and industrial plant grounds, on large estates and as shade trees on the grounds of low, ranch type homes.

NOTE: Flowering Trees quoted dug without ball unless indicated BB., meaning Balled and Burlapped.

DOGWOODS (Cornus)

No native tree is more admired and extensively used than the Dogwood, which is a shapely, dwarf, rapid grower, blooming when quite young. Beautiful as specimens and especially effective at edge of woodland under taller growing trees or as a border to an evergreen background, affording a most pleasing effect in spring when in full blossom.

The Dogwood may be had in pure white or deep pink. Two colors combined in group plantings produce a striking springtime picture. Flowering season will vary, but here in Virginia is usually late April, just ahead of Apple-blossom time. Four-petal blossoms average 2 inches across. Brilliant autumn foliage and red berries which carry well into winter. Somewhat more difficult to transplant than the average tree, therefore is offered dug without ball (NB) in only the 18-24 in. and 2-3 ft. size. We also offer 2-3 ft. and larger sizes balled and burlapped (BB), minimizing risk in transplanting.

Dogwood, Pink Flowering (Cornus florida rubra). Sometimes referred to as Red Flowering. Outstanding flowering tree. Habits of growth identical to White Flowering other than producing dark pink flowers. 18-24 in., NB., \$2.50 each; 3 or more, \$2.35 each. 2-3 ft., NB., \$3.25 each; 3 or more, \$3.10 each. 2-3 ft., BB., \$4.50 each; 3 or more, \$4.25 each. 3-4 ft., BB., \$6.00 each. 4-5 ft., BB., \$7.50 each. 5-6 ft., BB., \$9.75 each.

Dogwood, White Flowering (Cornus florida). Virginia's State Flower. This is the native White Dogwood admired by all who have seen it growing wild. Offered in nursery-grown, acclimated trees. 2-3 ft., NB., \$2.00 each; 3 or more, \$1.85 each. 3-4 ft., BB., \$4.50 each; 3 or more, \$4.25 each. 4-5 ft., BB., \$6.00 each. 5-6 ft., BB., \$7.50 each.

NOTE: Write for prices on larger BB specimens in Pink and White Dogwoods.

THREE-TREE DOGWOOD PLANTING

1 Pink Flowering Dogwood 2 White Flowering Dogwood

Total 3 Trees, 2-3 ft. Size, NB., \$7.35

Postpaid to points east of the Mississippi.

Or All Three in 3-4 ft., BB Trees—\$14.50, Express Collect

CHINESE SCHOLAR TREE (Sophora japonica). Also known as Japanese Pagoda Tree. Tall-growing, flowering tree. Creamy white flower panicles. 3-4 ft., \$3.25 each; 3 or more, \$3.10 each. 4-5 ft., \$4.00 each; 3 or more, \$3.75 each.

Kwanzan Flowering Cherry

ASH, EUROPEAN MOUNTAIN

(Sorbus aucuparia)

Valuable medium growing tree. Striking orange-scarlet berries. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each. 8-10 ft., \$6.50 each; 3 or more, \$6.25 each.

CORNELIAN CHERRY

(Cornus mas)

Medium-growing tree. Small yellow flowers in April. Shining scarlet fruits in fall. 18-24 in., \$1.75 each; 3 or more, \$1.60 each.

FLOWERING CHERRY (Prunus)

So generally known and admired that detailed descriptions are unnecessary. Strong growers, frequently blooming first season after being transplanted. Blossoms literally cover the stems.

Kwanzan Double Pink. Upright grower. A large percent of the trees in the famous Potomac Basin planting in Washington, D. C. are of this type. 3-4 ft., \$3.75 each; 3 or more, \$3.50 each. 4-5 ft., \$4.50 each; 3 or more, \$4.25 each. Write for quotations on large BB Pink Flowering Cherries.

Weeping. Differs from the Standard Flowering Cherry by being weeping in form. 5-6 ft. stem, blooming size specimens, \$12.00 each. Write for quotations on larger BB specimens.

WAYNESBORO, VIRGINIA

Ornamental TREES

7 ALMEY FLOWERING CRAB

(*Malus Almey*)

Huge blossoms of rich, glistening crimson. From a distance the tree has appearance of a mass of flame. Produces in profusion small scarlet fruits which cling long after the leaves have dropped. 3-4 ft., \$2.75 each; 3 or more, \$2.60 each. 4-5 ft., \$3.00 each; 3 or more, \$2.80 each.

FLOWERING CRABS—Other varieties see back cover.

FLOWERING PLUM (*Prunus Thundercloud*). Also known as Red-leaved Plum. Valuable small tree for the lawn. Purplish red foliage in spring, retaining its color well throughout the summer. Early pink flowers; ornamental bright red fruits. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each. 4-5 ft., \$2.75 each; 3 or more, \$2.60 each. 5-6 ft., \$3.25 each; 3 or more, \$3.10 each.

FRANKLINIA (*Franklinia altamaha*). The "Lost Tree" of the Altamaha. Rare slender tree with graceful branches. Large, fragrant, frilled and pleated white flowers, with masses of orange-gold stamens, from August until frost. Begins blooming when quite young. 3-4 ft., BB, \$9.50 each. 4-5 ft., BB, \$12.00 each. 3-4 ft., without ball, \$6.00 each.

GINKGO biloba (*Maidenhair Tree*). Pyramidal tree with maidenhair-like leaves. 3-4 ft., \$3.00 each; 3 or more, \$2.80 each.

GOLDEN CHAIN (*Laburnum vossii*). Shrub-like tree with long hanging clusters of yellow flowers in May. 5-6 ft., \$6.50 each; 3 or more, \$6.25 each.

GOLDEN-RAIN TREE (*Koelreuteria paniculata*). Clusters of lemon-yellow flowers in mid-summer. Medium grower, maturing 20 to 30 feet. 5-6 ft., \$4.50 each; 3 or more, \$4.25 each. 6-8 ft., \$6.00 each; 3 or more, \$5.75 each.

HAWTHORN (*Crataegus*)

Paul's Scarlet Hawthorn (*Crataegus oxyacantha pauli*). Grows 12 to 15 ft. Compact, uniform, shrub-like tree. Brilliant, rosy red, double flowers in June. Red berries. 4-5 ft., without ball, \$7.00 each. 5-6 ft., BB, \$12.00 each.

Washington Hawthorn (*Crataegus cordata*). White blossoms, scarlet autumn foliage. 3-4 ft., without ball, \$4.00 each. 4-5 ft., without ball, \$6.00 each. 4-5 ft., BB, \$9.00 each.

LINDEN, American (*Tilia americana*). Large, green leaves. Fragrant, creamy white flowers. Good grower, uniform, shapely tree. Useful for specimens, on home grounds, street and park plantings. 5-6 ft., \$3.25 each; 3 or more, \$3.10 each. 6-8 ft., \$4.00 each; 3 or more, \$3.75 each. 8-10 ft., \$5.00 each; 3 or more, \$4.75 each.

LINDEN, European Little-leaf (*Tilia cordata*). Smaller leaves than the American, more dwarf, compact grower. Excellent shade tree for small grounds or planting on narrow streets. Available only in BB specimens. Write for quotations.

MAGNOLIA, Oriental. Deciduous tree growing only 12 to 15 ft. high, branched from the ground. Tulip-like flowers in early spring just ahead of foliage. Available in Pink, Purple and White. 2-3 ft., BB, \$6.00 each. 3-4 ft., BB, \$8.00 each.

Redbud

REDBUD (*Cercis canadensis*). Beautiful, small tree which only recently has become recognized as one of our most valuable native flowering trees. Small pink flowers cover stems in early spring, before foliage appears. Effective in plantings with Dogwoods, around edges of forests, bordering lawn, in group plantings and as specimens. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each. 4-6 ft., \$2.50 each; 3 or more, \$2.35 each. 6-8 ft., \$3.75 each; 3 or more, \$3.50 each.

FLOWERING PEACH (*Prunus persica*). Double Pink, Red and White. Striking, colorful tree for the spring garden, bursting into blossom two weeks ahead of Dogwoods. Double, long-lasting flowers cover the twigs, remaining on for ten days or more. For best results, prune severely immediately after blooming, before new growth starts. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each. 4-5 ft., \$2.75 each; 3 or more, \$2.60 each. 5-6 ft., \$3.25 each; 3 or more, \$3.10 each.

Almey Flowering Crab

MIMOSA (*Albizia julibrissis*). Dwarf-like, irregular, spreading grower. Lacy foliage. Pink, silky flowers in July and August. Purely a southern tree, not often used north of Virginia. Fast grower, early bloomer and most effective as a specimen or in groups on large grounds. 5-6 ft., \$3.00 each; 3 or more, \$2.85 each. 6-8 ft., \$4.00 each; 3 or more, \$3.75 each. Large BB specimens quoted on request.

SERVICE BERRY (*Amelanchier canadensis*). Small, bushy, shrub-like tree. Pure white flowers appear early in spring, in advance of foliage. Red, juicy, delicious berries. Used extensively in Colonial Williamsburg gardens. 4-5 ft., \$3.25 each; 3 or more, \$3.10 each. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each.

SOURWOOD (*Oxydendrum arboreum*). Medium sized tree. Long, glossy green leaves, turning brilliant red in late summer, making it one of the most beautiful autumn forest and lawn trees. Creamy white flowers during June and July. Unfortunately, this valuable tree is rather difficult to transplant, so we offer dug with ball. 6-8 ft., BB, \$12.00 each. 8-10 ft., BB, \$18.00 each.

TULIP TREE (*Liriodendron tulipifera*). Also known as Tulip Poplar. Large, stately, pyramidal, fast-growing, native tree. Fragrant, creamy cup-shaped, Tulip-like flowers blotched orange. Spring planting recommended. 5-6 ft., \$3.00 each; 3 or more, \$2.80 each. 6-8 ft., \$4.00 each; 3 or more, \$3.75 each. Larger sizes offered BB. Ask for quotations.

Red Flowering Peach

Shade Trees

Good shade trees afford both comfort and beauty; in some instances, bloom, fruit and autumn coloring, as well as serve as a screen or background for other plantings. The following selection has been made with those qualities in mind. We are listing under "Flowering and Ornamental Trees" a group planted especially for ornamental effect. Both groups are planted for shade.

NOTE: Shade Trees are quoted dug without ball, NB, unless indicated BB, meaning Balled and Burlapped.

ASH, American White (*Fraxinus americana*). Strong grower, spreading and giving excellent shade, yet not so dense as to destroy grass beneath branches. Suitable for street and campuses, as well as on lawns, where space permits. 6-8 ft., \$3.75 each; 3 or more, \$3.50 each. 8-10 ft., \$4.75 each; 3 or more, \$4.50 each. 10-12 ft., \$6.50 each; 3 or more, \$6.25 each.

BEECH, American (*Fagus americana*). This famous tree is denied more extensive use because of its being difficult to transplant. So we offer only balled and burlapped specimens. 5-6 ft., BB, \$12.00 each. 6-8 ft., BB, \$18.00 each. 8-10 ft., 1 1/2-2 in. caliper, BB, \$30.00 each. Write for quotations an larger BB specimens.

BIRCH, Cut-leaved Weeping (*Betula alba pendula laciniata*). Slender tree with white bark, gracefully weeping branches, fern-like cut leaves, all of which combine to make it a most beautiful tree. May be used as a specimen or in tree groups. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each. 8-10 ft., \$6.50 each; 3 or more, \$6.25 each.

BIRCH, European White (*Betula alba*). Larger leaves and stiffer branches than the weeping type. Good shade tree as well as effective in group plantings. Young trees have grey bark which gradually changes to white. 5-6 ft., \$3.50 each; 3 or more, \$3.30 each. 6-8 ft., \$4.50 each; 3 or more, \$4.25 each. 8-10 ft., \$6.00 each; 3 or more, \$5.75 each. 10-12 ft., \$9.00 each; 3 or more, \$8.60 each.

BIRCH, Clump European White (*Betula alba*). Same as European White other than having three or more stems from ground, forming compact clump. 5-6 ft., \$5.00 per clump; 3 or more, \$4.75 per clump.

Chinese Elm

EUROPEAN WHITE BIRCH OFFER

Three Trees, 4-5 ft. Size
To be used as a Clump or Group Planting for \$4.85.
Postpaid to points east of the Mississippi.

CATALPA (Speciosa)

(Western Catalpa)

Fast growing, spreading tree. White summer flowers. Useful where quick effect is required. 6-8 ft., \$3.50 each; 3 or more, \$3.30 each. 8-10 ft., \$4.50 each; 3 or more, \$4.25 each.

ELMS (Ulmus)

The Elm comprises one of the best known and most extensively planted groups of shade trees, being adapted to almost all kinds of soil and climate. Easily transplanted, fast grower.

American (*Ulmus americana*). This famous shade tree adapted to numerous uses and localities. In many of our older cities trees with branches meeting across the street form a shaded archway. At its best when planted in parks and broad streets. 5-6 ft., \$2.35 each; 3 to 30, \$2.20 each; 30 or more, \$2.00 each. 6-8 ft., \$3.25 each; 3 to 30, \$3.00 each; 30 or more, \$2.75 each. 8-10 ft., \$4.00 each; 3 to 30, \$3.75 each; 30 or more, \$3.50 each.

CHINESE ELM (*Ulmus pumila*). Resembles American Elm, but is more compact, has finer branches, less spread, and does not grow to be as large. Suitable for streets, on home grounds, and other places where a fast-growing, medium size tree is desired. Sends its roots deep into the soil, interfering very little with grass. One of the fastest growers of all shade trees; also one of the first to come out in leaf in the spring and last to lose its foliage in the fall.

	Each	3 to 30 Each	30 or more Each
5- 6 ft.	\$2.00	\$1.85	\$1.70
6- 8 ft.	2.75	2.60	2.40
8-10 ft.	3.75	3.50	3.30
10-12 ft.	4.75	4.50	

European White Birch

Thornless Honey Locust

KENTUCKY COFFEE TREE (*Gymnocladus dioica*). Somewhat resembles the Walnut. Blue-green foliage. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each.

LARCH, European (*Larix europaea*). Low-branched, deciduous, evergreen-like tree. Branches slender, tips pendulous. Soft light green leaves which resemble short needles of a Pine. 5-6 ft., NB, \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., NB, \$5.00 each; 3 or more, \$4.75 each. 8-10 ft., BB, \$20.00 each.

MAPLE, CARDINAL

(*Acer platanoides nigra*)

Recent introduction from Holland. Sometimes listed as Faassen's Redleaf Maple. Sport of well-known Norway Maple. New, tender foliage is crimson, turning bronze as leaves mature. Habits of growth similar to Norway. For color accent all summer, plant Cardinal. 5-6 ft., \$6.00 each. 6-7 ft., \$7.25 each.

New Cardinal Maple
Furnishing both shade and color.

GUM, Sour (*Nyssa sylvatica*). Write for quotations on BB specimens.

GUM, Sweet (*Liquidambar styraciflua*). Medium size, reasonably fast grower. Odd, cork-like bark. Large green leaves during summer, turning to beautiful golden and scarlet in fall, making it a very satisfactory shade tree, but is difficult to transplant. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each. 8-10 ft., \$6.50 each; 3 or more, \$6.25 each.

HACKBERRY (*Celtis occidentalis*). Small, compact, slow grower. Blue-black berries. 5-6 ft., \$3.50 each; 3 or more, \$3.30 each. 6-8 ft., \$4.50 each; 3 or more, \$4.25 each. 8-10 ft., \$6.00 each; 3 or more, \$5.75 each.

HONEY LOCUST, Thornless (*Gleditsia triacanthos inermis*). Odd shaped, spreading tree with broad head, somewhat weeping branches, finely cut foliage. Tree filled with sprays of greenish white, fragrant flowers in early summer. Thornless. 6-8 ft., \$3.50 each; 3 or more, \$3.30 each. 8-10 ft., \$4.50 each; 3 or more, \$4.25 each.

MAPLE (Acer)

This group is well-known and extensively planted as Maples can be satisfactorily grown in a large part of this country. Of numerous varieties, we offer the most choice ones as follows:

Japanese Blood-leaved (*Acer palmatum atropurpureum*). Attractive, ornamental, shrub-like tree. Bright red foliage early spring, copperish red during summer, turning bright red during late fall. As more transplanting risk is involved than in other Maples, we offer balled and burlapped. 18-24 in., BB, \$9.00 each. 24-30 in., BB, \$12.00 each. 30-36 in., BB, \$16.00 each. 3-4 ft., BB, \$20.00 each.

Norway (*Acer platanoides*). Especially suited for street planting and on grounds of small homes. As it makes only a medium size tree, can be used where space does not permit larger trees such as Sugar Maple and American Elm. Large, dark green foliage. Dense, spreading. Rather slow grower. 5-6 ft., \$3.50 each; 3 or more, \$3.30 each. 6-8 ft., \$4.25 each; 3 or more, \$4.00 each. 8-10 ft., \$5.75 each; 3 or more, \$5.50 each.

Scarlet (*Acer rubrum*). Medium grower. Light green foliage generally turning scarlet in fall. Not quite as dense as Norway. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$4.75 each; 3 or more, \$4.50 each. 8-10 ft., \$6.50 each; 3 or more, \$6.25 each.

Schwedler's Red-leaved (*Acer platanoides schwedleri*). Symmetrical tree of Norway family. Leaves bright reddish purple in spring, turning deep bronzy green in summer. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$4.75 each; 3 or more, \$4.50 each. 8-10 ft., \$6.50 each; 3 or more, \$6.25 each.

Silver (*Acer dasycarpum*). Especially popular because of being a fast grower. Light green foliage slightly silver underneath. Trees grow to be larger and more spreading than Norway and should be given more space. Excellent for broad streets and large home grounds, as well as useful in public parks. 5-6 ft., \$2.25 each; 3 or more, \$2.10 each. 6-8 ft., \$3.00 each; 3 or more, \$2.80 each. 8-10 ft., \$4.00 each; 3 or more, \$3.75 each. 10-12 ft., \$5.75 each; 3 or more, \$5.50 each.

Sugar Maple. See opposite page.

SHADE

Norway Maple

NEW! MORaine LOCUST

(Patent No. 836)

Fast-growing Hardy Long-lived Seedless

Especially adapted to new homes requiring quick shade, yet Moraine Locust is a good tree—hardy, long-lived, drought-resistant, and will grow in a wide range of soil and climate. Due to good shape of tree and fine foliage, enough light filters through to permit excellent lawn. The Moraine is sterile, so there are no unsightly seed pods to clean up in the fall. 5-6 ft., \$6.00 each; 3 or more, \$5.75 each. 6-7 ft., \$8.00 each; 3 or more, \$7.65 each.

Circus, Floribunda

Top Level All Patented *New Everblooming* **GRANDIFLORA and FLORABUNDA ROSES**

**FIVE TOP-LEVEL PATENTED
GRANDIFLORA AND
FLORIBUNDA ROSES**
As Illustrated on This Page
One Each—Total 5 2-Year.
Blooming Size Plants for
\$10.95. Postpaid to points
east of the Mississippi.

**Queen Elizabeth,
Grandiflora**

2-Year, Blooming Size Plants

Grandiflora is a new class of Roses, produced by crossing Hybrid Tea with Floribunda, combining the best features of both—bud form, long-lasting bloom, superb cutting stems of Hybrid Teas and free blooming characteristics of Floribundas. Both Grandifloras and Floribundas are vigorous, free bloomers. Effective in the shrub border, foundation planting, groups, beds, or bordering walkways and driveways.

Circus. (Patent No. 1382). Floribunda. The only 1956 All-America Selection Winner. Makes a spectacular show of changing colors—yellow, orange, scarlet, buff, pink and red, with yellow being the predominant color. Fragrant blooms, perfectly shaped, borne in great profusion on sturdy stems. Fine for cutting. Bush compact and medium low-growing. **\$2.50 each.**

Buccaneer. (Patent No. 1119). Grandiflora. One of the most brilliant, intense yellow Roses. Holds its color well. Vigorous, free-branching bush producing an abundance of flowers. **\$2.50 each.**

Queen Elizabeth. (Patent No. 1259). Grandiflora. All-America Winner for 1955. Clear, glowing blooms are a beautiful blend of soft carmine-rose and dawn-pink. Deep green, heavily textured, glossy foliage. The fragrant flowers are borne on long, almost thornless stems, and hold up well when cut. Exceptionally vigorous, disease-resistant plants. **\$2.50 each.**

Redcap. (Patent No. 1292). New bright red Floribunda. Flowers and bloom clusters are large. They make a great display in the garden; also fine for cutting. Very sturdy plant of medium size. **\$2.00 each.**

Roundelay (Patent No. 1280). Distinctive, new Red Grandiflora. The satiny brilliant red blooms display all the fine form of the best Hybrid Tea, but there will be many more. Extremely vigorous, easy-to-grow plant. **\$2.50 each.**

VINES and Ground Cover Plants

HARDY CLIMBING VINES—For Decoration, Shade and Screens

BOSTON IVY (*Ampelopsis veitchii*). Most popular deciduous climber. Clings to smooth surface walls. Often planted as a support to Evergreen English Ivy, the two climbing to great heights. 2-yr., \$1.00 each; 6 for \$5.50; 12 for \$10.00.

CLEMATIS, Large Flowering. No other climbing vine equals in attractiveness the beautiful Large Flowering Clematis. Profusion of bloom in May, followed with some blossoms throughout summer. Excellent for porch and trellis planting.

Henryi. Large, single white.

Jackmani. Most popular large purple.

Mme. Andre. Large, violet-red.

Prices—Clematis Henryi, Jackmani and Mme. Andre: 2-yr., \$1.50 each. One each—total 3 vines—\$4.20.

CLEMATIS paniculata. The finest small-flowering Clematis. In mid-summer entire vine is clothed in a mass of white bloom. 2-yr., \$1.00 each; 6 for \$5.50; 12 for \$10.00.

ENGLISH IVY (*Hedera helix*). Broad, glossy evergreen foliage. Used as a ground cover in low, shady places as well as a border to walks and garden paths. Can be planted for covering walls, but should be used in connection with Boston Ivy for climbing smooth walls. 4-in. pots, \$1.00 each; 6 for \$5.50; 12 for \$10.00. 2 1/4-in. pots, 50c each; 6 for \$2.70; 12 for \$5.00.

GOLD-FLAME HONEYSUCKLE (*Lonicera heckrotti*). Large, flame-coral, trumpet-shaped flowers lined gold. May until frost. 2-yr., \$1.00 each.

KUDZU VINE (*Pueraria*). One of the fastest growers of all vines. Useful for covering steep banks, unsightly buildings or for making quick screen or shade. 3 for \$1.80; 6 for \$3.50; 12 for \$6.00.

WISTARIA. Possibly most spectacular of all flowering vines. Vigorous grower, needs considerable space and support. We offer the following:

Sinensis. Old favorite Chinese Wistaria. Long, pendulous clusters of blue flowers in May. 2-yr., \$1.50 each.

Sinensis alba. Fragrant white. May. 2-yr., \$2.00 each. 10-yr., BB, Blooming Size Specimens, \$15.00 each.

Multijuga rosea. Long clustered, clear pink. 2-yr., \$2.00 each. 10-yr., BB, Blooming Size Specimens, \$15.00 each.

AFRICAN VIOLETS

Write for Special African Violet Price List, describing and quoting many choice varieties.

GROUND COVER PLANTS To cover and hold banks too steep for mowing and for covering barren spots too shady for lawn grass.

BIGLEAF WINTERCREEPER (*Euonymus radicans vegetus*). Evergreen. Bushy. Round, dull green leaves. Scarlet berries. Excellent among evergreens or in borders. 2-yr., 60c each; 6 for \$3.30; 12 for \$6.00. 4-yr., \$1.00 each.

EUONYMUS radicans minimus (Baby Wintercreeper). Very small, dark green, dense foliage. Clings to almost any surface. Valuable in the rock garden or shady places in the garden where an evergreen ground cover of delicate appearance is needed. 3-in. pots, 3 for \$1.80; 12 for \$6.00.

GERMANDER (*Teucrium chamaedrys*). Low, shrub-like plant sometimes listed as a perennial. Used as a ground and bank cover plant and in the rock garden. Rosy purple flowers; bluish tinged evergreen foliage. 2-yr., 60c each; 6 for \$3.30; 12 for \$6.00.

HONEYSUCKLE, Hall's (*Lonicera japonica halliana*). White and yellow fragrant flowers produced in abundance in early spring and occasionally throughout summer. Used chiefly for holding steep banks, as a ground cover in shady locations, and may also be used as a climber. Bedding size, 12 for \$2.50; 100 for \$15.00. 3-yr., 50c each; 12 for \$5.00; 100 for \$35.00.

PACHYSANDRA terminalis (Spurge). One of the best ground cover plants, particularly valuable in shade. Averages 6 to 8 in. in height and branches freely, forming dense mat. Its thick foliage is practically evergreen. 2-yr., 12 for \$3.50; 100 for \$25.00.

PURPLE WINTERCREEPER (*Euonymus radicans coloratus*). Evergreen. Excellent ground cover for shady locations. The long, narrow leaves are rosy purple underneath. 2-yr., 60c each; 6 for \$3.30; 12 for \$6.00.

VINCA minor (Periwinkle). Old favorite trailing plant. Blue flowers, dark green leaves. Used as a ground cover under trees, where grass fails, on steep banks, and border for garden paths. Bedding size, 12 for \$2.50; 100 for \$15.00. 2 1/4-in. pots, 12 for \$3.50; 100 for \$25.00.

Clematis Jackmani

Hardy Carefree PERENNIALS

Yellow Supreme Cushion Mum

CUSHION MUMS

Low-growing, spreading type, blooming from late July until freezing weather. Especially recommended for rock gardens and low borders.

OTHER HARDY PERENNIALS

For best effect, plant three or more of a variety. You may not have room for shade trees, evergreens, shrubs, or even Roses, but you can use perennials effectively arranged in spaces too limited for other ornamentals. (*) indicates suitable for rock gardens.

- ***ALYSSUM saxatile compactum** (Basket of Gold). Bright yellow. Early spring. 1 ft. 45c each; 3 for \$1.20; 12 for \$4.50.
- ***BLEEDING HEART** (*Dicentra spectabilis*). Old-fashioned flower with long racemes of heart-shaped pink flowers in May and June. 2 ft. 75c each; 3 for \$2.00.
- ***CANDYTUFF, Hardy** (*Iberis sempervirens*). Dwarf plant 8 to 10 in. across covered with waxy white flowers in spring. 45c each; 3 for \$1.20; 12 for \$4.50.
- CANTERBURY BELLS** (*Campanula Medium*). Mixed colors. June and July. 2 ft. 45c each; 3 for \$1.20; 12 for \$4.50.
- CARNATIONS, Hardy.** Valuable for cut flowers and in borders. Delightful fragrance. Mixed colors. 45c each; 3 for \$1.20; 12 for \$4.50.
- ***COLUMBINE, (Mrs. Scott Elliott's Hybrids)** (*Aquilegia*). Choice old English strain of one of the best loved perennials. Pastel shades of rose, blue and yellow in many delightful combinations. Mixed. May and June. 2 ft. 45c each; 3 for \$1.20; 12 for \$4.50.
- DELPHINIUM, Giant Pacific Hybrids** (*Perennial Larkspur*). A most beautiful perennial in the garden and one of the best cut flowers. Tall-growing. The huge florets are beautifully spaced on well branched, strong spikes as much as 3 ft. Various shades of blue blending into delicate pink. At its best in early June; some flowers throughout summer. 60c each; 3 for \$1.60; 12 for \$6.00.
- ***DIANTHUS deltoides** (*Maiden Pink*). Masses of small pink flowers in May and June. 1 ft. 45c each; 3 for \$1.20; 12 for \$4.50.
- ***EUPHORBIA myrsinites**. A prostrate plant with attractive blue-green foliage which survives throughout winter. Yellow flowers in early spring. Especially desirable in rock gardens because of its evergreen foliage and prostrate habit. 45c each; 3 for \$1.20; 12 for \$4.50.
- ***FORGET-ME-NOT** (*Myosotis palustris semperflorens*). Bright blue flowers, all summer. Dwarf grower, ideal for moist, shady places, for the rock garden or border. 45c each; 3 for \$1.20; 12 for \$4.50.
- GAILLARDIA grandiflora**. Numerous shades of orange, red and yellow. 45c each; 3 for \$1.20; 12 for \$4.50.
- GYSOPHILA paniculata** (*Baby's Breath*). Minute, starry, white flowers borne in profusion on massive, spreading plant with small, thread-like stems. Used in cut flower arrangements. Blooms for long period during summer. 3 ft. 45c each; 3 for \$1.20; 12 for \$4.50.
- ***LILY-OF-THE-VALLEY** (*Convallaria majalis*). Old favorite garden plant. Dainty, white, bell-shaped flowers in May. Very fragrant. Can be grown in considerable shade. 6 to 10 in. 45c each; 3 for \$1.20; 12 for \$4.50.
- LINUM perenne** (*Flax*). Soft, feathery foliage, clear blue flowers in early spring. Useful garden plant, well suited to rock gardens and borders. 2 ft. 45c each; 3 for \$1.20; 12 for \$4.50.
- ***SAPONARIA ocymoides splendens** (*Soapwort*). Dense masses of pink flowers in late spring, adding color to the rock garden or border planting. 45c each; 3 for \$1.20; 12 for \$4.50.
- SHASTA DAISY** (*Chrysanthemum maximum*). Large white blossoms in June, July and August. 2 ft. 45c each; 3 for \$1.20; 12 for \$4.50.
- SWEET WILLIAM** (*Dianthus barbatus*). Old-fashioned garden favorite. Mixed colors. 45c each; 3 for \$1.20; 12 for \$4.50.
- ***THYMUS** (*Thyme*). Creeping ground cover plant. Purplish pink flowers in fall. Used in wall planting, rock gardens and low borders. 3 for \$1.00; 12 for \$3.00.
- TRITOMA** (*Red Hot Poker*). Rich orange-scarlet flower heads on 3 to 4 ft. spikes. June and July. 45c each; 3 for \$1.20; 12 for \$4.50.
- ***VERONICA rupestris** (*Speedwell*). Thickly matted, deep green foliage. Bright blue flowers in June. 45c each; 3 for \$1.20; 12 for \$4.50.

Hardy Exhibition CHRYSANTHEMUMS

for YEARS of Garden Loveliness

Emerald Pink

HARDY PHLOX

Offered in two distinct classes:

Standard Upright (*Phlox decussata*) and **Creeping** (*Phlox subulata*).

Outstanding Standard Upright Phlox

Available in following selected varieties, varying in height from 12 to 36 in. Bloom over extended period through midsummer.

Blue Boy. Free-flowering blue. Fairly tall grower.

Elizabeth Arden. Dwarf, compact grower with delicate pink florets, red eye.

Feurbrand. Flaming orange-scarlet. Tall.

Flash. Tall, dark red.

Lillian. Beautiful salmon-pink. Medium height.

Mary Louise. Large white. Medium height.

Prices on above Outstanding Standard Phlox: 60c each; 3 of one variety for \$1.50; 12 for \$6.00, not less than 3 of a variety.

CREeping PHLOX

(*Phlox subulata*)

Early spring-flowering type with pretty, moss-like, ever-green foliage which during the flowering season in April and May is hidden under masses of bloom. Excellent plant for rockery and border; invaluable for carpeting the ground.

Alba. Pure white. Neat, compact plant.

Astro. Deep orchid-rose.

Blue Hill. Uniform, compact. Showy blue flowers.

Crimson Beauty. New cyclamen-red with small carmine center.

Emerald Pink. Compact dark green foliage. Masses of pink flowers.

Lilacina. Free-flowering, lilac-colored.

Phlox subulata prices: 45c each; 3 of one variety for \$1.20; 12 for \$4.50, not less than 3 of a variety. Mixed Colors. 12 for \$3.85.

Hardy LILIES

Madonna Lily (Candidum). One of the most beautiful pure white Lilies. June. Offered for fall delivery only. 3 for \$1.60; 12 for \$6.00.

Magic Lily (Lycoris squamigera). Hardy Amaryllis. Green foliage, which disappears in July, followed a month later, as if by magic, by flower stalks springing from the ground to a height of 2 to 3 ft., developing large, Lily-shaped, delicate lilac-pink flowers, 4 in. across appearing in clusters of 8 to 12. 65c each; 3 for \$1.75; 12 for \$6.50.

Regal Lily (Regale). White flowers with pink and yellow throat. Very fragrant. Most popular hardy garden lily; also beautiful and lasting as a cut flower. June. 3 for \$1.35; 12 for \$4.50.

Regale Lily

HEMEROCALLIS (Day Lilies)

Bay State. Brilliant, glistening deep yellow. Late June. 4 ft.

Lemona (Lemon Day Lily). Large lemon-yellow. June. 4 ft.

Margaret Perry. Bright orange-scarlet. July. 3 1/2 ft.

Day Lily Prices: 3 of one variety for \$1.60; 12 for \$6.00, your choice of varieties.

TREE PEONIES

Famous in Oriental Gardens. Rare in this country but could be used to great advantage. Hardy and easily grown. Pink, Violet and Rose. Ask for prices.

Hopa Crab

Dolgo Crab

PLANT FLOWERING CRABS

One of the very best small ornamental trees. Showy masses of blooms herald the coming of spring; cool summer shade is to be enjoyed; as autumn approaches, the small shapely fruits add to the beauty of the tree and are fine jelly-makers. Effective in street plantings, on large and small home grounds, in parks, and for beautifying industrial plant surroundings. Easily grown, vigorous, hardy. Frequently bloom second year after transplanted. Make your selections from the choice varieties offered.

Every Home Needs Flowering Crabs

- **Dolgo** (Malus Dolgo). Single white. Red, edible fruits. Green foliage.
- **Eley's** (Malus eleyi). Masses of red flowers followed by scarlet fruits which are excellent for jellies and pickles. Red foliage in spring, deepening into bronzy green as summer advances. Strong grower. Desirable as specimen shade tree.
- **Hopa** (Malus Hopa). Bright pink flowers in profusion. Red fruits suitable for jellies and pickles. Good grower. Excellent as a specimen or as a green-leaved companion of Eley's.
- **Red Silver** (Malus Red Silver). Silver and red foliage. Crimson flowers, red fruits.
- **Sargent** (Malus sargentii). White flowers, red fruits. Free-flowering. Rather dwarf grower.

PRICES ON ABOVE FLOWERING CRABS
